PRICE THREE CENTS

## SENATE DEFEATS CLOSURE RULE ON THE TARIFF BILL

Resolution to Limit Debate  
on Proposed Emergency  
Measure Fails of Necessary  
Two-Thirds Vote.

## 36 VOTE FOR THE ACTION, 35 AGAINST

Although Practically Killed  
Some Proponents of Legis-  
lation Say They Will Con-  
tinue Fight for Its Passage.

By the Associated Press.  
WASHINGTON, Feb. 2.—The Re-  
publican attempt to enforce closure  
for consideration of the emergency  
tariff bill was defeated today in the  
Senate. The vote was 36 for adoption  
of closure to 35 against, far less than  
the necessary two-thirds majority.

The closure petition was sup-  
ported by 27 Republicans and nine  
Democrats and was opposed by seven  
Republicans and 25 Democrats. Many  
on both sides were paired.

Republicans voting against the  
closure rule were Senators Borah,  
Cott, Gronna, Johnson (California),  
Keyes, La Follette and Townsend—  
seven.

Democrats voting for the closure  
rule were Senators Ashurst, Hendon,  
Johnson (South Dakota), Jones  
(New Mexico), Kendrick, Myers,  
Randall, Sheppard and Smith  
(Georgia)—nine.

Immediately after the closure vote  
Senator Simmons, Democrat, North  
Carolina, sprang a surprise by sub-  
mitting a unanimous consent agree-  
ment on behalf of the Democrats  
which would fix Feb. 13 as the date  
for a vote on the measure. Senator  
Penrose, in charge of the bill, urged  
that the date be set earlier so the  
Senate could have opportunity to ex-  
ercise its prerogative in case of a  
presidential veto.

One Refuses to Consent.  
Senator Williams, Democrat, Mis-  
sissippi, interrupted to say he would  
object to any unanimous consent  
agreement at any time.

Senator Townsend, Republican,  
Michigan, moved to displace the tariff  
bill before the Senate with the  
postoffice appropriations bill, but the  
Senate voted down the proposal. Senator  
Penrose served notice that he  
intended to keep the emergency  
tariff bill before the Senate.

## MODIFICATION OF REPARATION PLAN LIKELY AT LONDON

British Authorities Say Paris Decision Is De-  
claration of German Debt—Tax on Ex-  
ports May Be Altered.

By the Associated Press.  
LONDON, Feb. 2.—The confer-  
ence called by the Supreme Council  
to be held in London Feb. 23, to  
which the Germans will be invited,  
will not be for the purpose of pro-  
nouncing an irrevocable sentence re-  
garding reparations, from which the  
Germans will not be able to appeal.  
It was authoritatively stated here to-  
day. The conference, rather, will be  
designed to produce a declaration of  
the principles of Germany's indebt-  
edness.

It is pointed out in official circles  
that the work of the Paris confer-  
ence on reparations was that of  
making a solemn declaration of Ger-  
many's indebtedness. That declara-  
tion, it is asserted, will in the main  
be closely adhered to at the London  
conference, but the allies and Ger-  
many can adjust the method and  
time of the payments.

It is even probable, it is stated,  
that the 12 per cent tax on Ger-  
many's exports, provided for in the  
Paris terms, may be altered by the  
conference, although the principle of  
the right to impose such a tax will  
be retained. The export tax meas-  
ure, it is asserted here, was strictly  
a French proposal, advanced for the

purpose of guaranteeing the fullest  
protection from future German ag-  
gression.

Paris Officials Say German Objec-  
tions Would Be Examined.  
By the Associated Press.  
PARIS, Feb. 2.—It was said in  
official circles today that if Foreign  
Minister Simons of Germany had  
announced a refusal to accept the  
reparation terms as formulated by  
the Supreme Council as a basis for  
negotiations, this would not change  
the attitude of the Allies, who con-  
sider the decisions reached at Paris  
merely as details in the execution  
of the treaty of Versailles.

The Allies, it was stated, are de-  
termined not to reopen the question  
so laboriously settled by them. Ger-  
many may refuse to negotiate the  
treaty, but she will not be allowed  
to say on what basis she will or will  
not negotiate, since the entire dis-  
cussion concerns an undertaking to  
which Germany put her signature.  
If she wants to present objections  
regarding the mode of execution, she  
will be examined. If she refused execution,  
the Allies will notify Berlin of the four pen-  
alties fixed in Paris.

The Brussels conference set for  
Feb. 7, will, so far as information  
is available here, take place as  
planned.

## PERSHING AGAINST HALTING NAVY AND ARMY PROGRAMS

Former A. E. F. Commander  
Says We Should Go Ahead  
Until Agreement by at  
Least Five Nations Is  
Reached.

## POINTS OUT DANGER OF UNPREPAREDNESS

Asserts That While We Are  
Not a Militaristic Nation It  
Is Probable Other Coun-  
tries Fear Us.

By the Associated Press.  
WASHINGTON, Feb. 2.—A warn-  
ing against pacifism and unprepa-  
redness was given the House Naval  
Committee today by Gen. Pershing,  
who appeared to discuss world disar-  
mament.

While expressing approval of the  
proposal for a world disarmament  
conference, the former commander  
of the American Expeditionary  
Forces said the United States should  
go ahead with its present navy and  
army programs until a definite  
agreement had been reached by at  
least the five great world powers.

"We should steer clear of drifting  
into a pacifist state of mind, simply  
because we are discussing this sub-  
ject," Gen. Pershing asserted. "None  
of us wants war, but we do not want  
to be caught unprepared if war  
comes."

Safe Policy to Pursue.  
"Little more agreement is had I  
would say that the safe policy for  
the United States to pursue would be  
to continue our army and navy pro-  
grams and not allow ourselves to be  
caught unprepared as we were at the  
beginning of the world war."

The nations of the world know,  
he said, that the United States is in  
an economic position which enables it  
to outstrip the world in military pre-  
parations if it so desired, and that,  
therefore, they would realize the im-  
portance of this country's disarmament  
if initiated by this country and would  
subscribe to it gladly.

Staggering burdens of debt result-  
ing from the world war, he said, are  
causing a reduction in military ex-  
penditures imperative to most na-  
tions, Gen. Pershing said.

"Some agreement might be  
reached if representatives of the na-  
tions gathered to discuss the ques-  
tion," he said. "If the thinking people  
of the world cannot reach some  
agreement in the first of what has  
happened we may well ask ourselves  
where civilization is leading us."

## War Department Gets a Bargain in an Airship

WASHINGTON, Feb. 2.—PURCHASE of the Italian  
airship Roma, believed to  
be the largest semi-rigid air-  
craft in the world, for approx-  
imately \$200,000 was announced  
today by the War Department.  
It probably would cost \$1,500,000  
to duplicate the ship, the  
statement said.

The Roma is of 1,200,000 cu-  
bic feet capacity, 410 feet long,  
82 feet wide and 58 1/2 feet high,  
and equipped with six 12-cyl-  
inder engines of 400-horsepower  
each. It has an estimated speed  
of 80 miles an hour and a cru-  
ising radius at full speed of 3,000  
miles and at cruising speed of  
8,000 miles. Maj. John G.  
Thornell has been ordered to  
Italy with an air service detach-  
ment to bring the Roma to  
America.

\$150,000 ESTATE TO  
WOMAN, RESULT OF  
CRY 20 YEARS AGO  
Will of Insurance Man Gives  
Property in Recognition of  
Girl's Warning to Wife.

KANSAS CITY, Mo., Feb. 2.—A  
childish cry that warned Mrs. Anna  
Potter of impending danger from a  
toppling chimney during a wind-  
storm 20 years ago, resulted yester-  
day in Mrs. Ella Potter Jones inher-  
iting the entire estate of Eli Potter,  
pioneer insurance man. The estate  
is valued at between \$100,000 and  
\$150,000.

The will of Potter, filed yesterday  
for probate, contains this paragraph:  
"Twenty years ago a little girl named  
Ella Drysdale probably saved the life  
of my wife when she was threatened  
by a tottering chimney. The childish  
cry resulted in our raising this little  
girl, who was known until her mar-  
riage as Ella Potter. In consideration  
of this service it is my desire that  
she inherit all my property except the  
sum of \$50, which I bequeath to  
my sister, Ella Huis."

The will provides that the admin-  
istrators of the estate hold the prop-  
erty and collect the rents which they  
are to pay over to Mrs. Jones for 20  
years, during which the property,  
largely real estate, was used by an-  
other person. At the end of 11  
months of that time it is to become the  
property of Mrs. Jones, if she still is  
living.

SIX MORE WEEKS OF WINTER, IF  
YOU BELIEVE THE GROUNDHOG  
It Won't Be Hard to Take, How-  
ever, if It Is of the January  
Brand Just Experienced.

This is Ground Hog day (properly  
Candlemas day), much used by an-  
cient weather prophets for predic-  
tions of a late or early spring.  
Their theory is that today the  
Ground Hog emerges from his hole  
after his winter's hibernation; if the  
sun is shining sufficiently to cast  
his shadow upon the ground, he  
scurries back to his hole in the be-  
lief that six weeks of cold weather  
may still be expected; if the sun is  
not shining and no shadow is cast,  
he remains out in the belief that  
spring is at hand.

The sun was out here early today.  
However, six more weeks of winter  
of the January brand just experi-  
enced doesn't mean anything.

## LOANS OF HOUSING TRUST TO OFFICERS AND POLITICIANS

Mayor Kiel, Hertenstein,  
Maurice J. Cassidy and  
Mrs. Foristel Among Lin-  
coln Borrowers.

## REPEAL OF ENABLING STATUTE SOUGHT

After 11 Months, Association  
Had Made 14 Loans and  
Had 1650 Certificate Hold-  
ers on Waiting List.

By a Staff Correspondent of the  
Post-Dispatch.  
JEFFERSON CITY, Feb. 2.—In-  
formation brought to the attention  
of members of the Legislature since  
the introduction several days ago of a  
bill to repeal the law under which  
the Lincoln Housing Trust of St.  
Louis conducts its business, has  
shown that St. Louis office holders  
and politicians, and officers of the  
Lincoln Trust were among those who  
received the first loans granted by  
the trust.

Included among them are Mayor  
Kiel, Maurice J. Cassidy, Miss Mae  
Walsh (now Mrs. Edward W. Foris-  
tel), Charles Hertenstein, Foristel  
and Ben G. Brinkman. Foristel is  
president of the Lincoln Housing  
Trust. Hertenstein is treasurer and  
is chairman of the Efficiency Board  
of the Municipal Government, and  
Brinkman was the first president of  
the Lincoln Trust.

The information was obtained  
from the files of Supervisor Lee of  
the State Building and Loan De-  
partment, who examined the Lincoln  
Trust last fall, at the end of the first  
11 months it was in business.

At that time, according to a finan-  
cial statement of the company, it  
had gross receipts of \$152,174.65. Of  
this amount, \$34,754.15 went as com-  
missions to the fiscal agents and for  
expenses, \$5832.75 was set aside for  
attorney fees, and only \$45,586.75  
went into the trust fund to be loaned  
to certificate holders.

Under the plan of operation of the  
trust each certificate holder paid in  
\$7.50 a month for each \$1000 of face  
value of his certificate, and was en-  
titled to a loan if there was money  
in the trust fund. At the end of 11  
months, 14 loans had been made,  
1650 certificate holders were await-  
ing loans, and the loan fund had  
been exhausted.

The records of Supervisor Lee's of-  
fice which now are being exhibited,  
show that Mayor Kiel received cer-  
tificate No. 1 for \$4000 and that he  
obtained a loan of \$4000. Maurice  
J. Cassidy, an officer of the  
Building Trades Council, received  
certificate No. 2 for \$5000 and ob-  
tained a loan of \$4578.75. No. 3 cer-  
tificate went to C. J. Laymert, pres-  
ident of the Building Trades Council  
and a member of the Board of Elec-  
tion Commissioners, but he received  
no loan.

Holders of certificates.  
No. 4 certificate went to George  
Bechtold for \$2000. No. 5, for \$2000,  
went to H. G. Sellman, actuary of  
the International Life Insurance Co.,  
of which Republican National Com-  
mittee member Babler is vice president.  
D. L. Dyer received No. 6, and Mrs.  
Foristel, then Miss Mae Walsh, Foris-  
tel's private secretary, received No.  
7 for \$2000. She received a loan of  
\$2105. Hertenstein had No. 8 for  
\$5000 and received a loan of \$4090.  
Foristel had No. 12 for \$7500 and  
received a loan of \$4500. B. G.  
Brinkman had Nos. 17 and 18 for  
\$7000 each and received a loan of  
\$7315. Babler had No. 25 for \$3000.  
A. M. Fromberg, a lawyer, had No.  
31 for \$4000. The others were held  
by persons who are not prominent  
in St. Louis affairs.

## NATION-WIDE BAN ON WITHDRAWING LIQUORS FROM WAREHOUSES

Prohibition Commissioner Instructs  
Storage Houses to Honor No Per-  
mits Regardless of Date of Issue—  
Wholesale Liquor Dealer Elim-  
inated by Palmer's Ruling.

By the Associated Press.  
WASHINGTON, Feb. 2.—Withdrawal of liquor from ware-  
houses in every State in the Union and in Porto Rico and Ha-  
waii is prohibited until further notice, under orders issued from  
Federal prohibition headquarters today.

The order placing a nation-wide ban on withdrawals of liquor  
is effective immediately.

## NEWBERRY PLURALITY 4334 AFTER RECOUNT

Ford Made Gain of 3233 Votes  
in Canvass, Completed by  
Senate Committee.

By the Associated Press.  
WASHINGTON, Feb. 2.—The re-  
count of ballots in the Michigan sen-  
atorial election of 1913, finished to-  
day by the Senate Elections Com-  
mittee, left Senator Newberry, Republi-  
can, with a plurality of 4334 over  
Henry Ford.

Ford made a net gain of 3233  
votes in the recount, but Senator  
Newberry's original plurality was  
7567.

The Senate committee's recount,  
sought by Ford, gave Senator New-  
berry 217,085 votes and Ford 212,751.  
It began Jan. 4 and was a  
proceeding distinct from fraud  
charges and counter-charges still  
pending before the committee and  
also from criminal proceedings  
against Senator Newberry which are  
pending in the Supreme Court.

Most of Ford's net gain in the  
recount resulted from technical ir-  
regularities in the ballots, it was  
said, such as the failure of election  
clerks and judges to sign ballots, as  
required by the Michigan law. The  
recount resulted, however, in un-  
dercutting many ballots for both can-  
didates which had been counted.

ASKS FOR INQUIRY INTO LANDS  
RIGHT TO CONTINUE AS JUDGE  
Congressman Would Determine  
Whether He Can Hold Place  
While Acting as Baseball Arbi-  
trator.

By the Associated Press.  
WASHINGTON, Feb. 2.—Con-  
gressional investigation to determine  
whether Judge Landis is permitted  
under law to continue as Federal  
judge while acting as "arbitrator of  
organized baseball" at an annual sal-  
ary of \$42,500 is proposed in a res-  
olution introduced today by Repre-  
sentative Wetly, Democrat.

RESTRANT ON FIXING PRICES  
OF CORRUGATED PAPER BOXES  
By the Associated Press.  
NEW YORK, Feb. 2.—A perpetual  
injunction restraining the Corrugated  
Paper Manufacturers' Association,  
Inc., from advancing or fixing prices  
or corrugated paper boxes through-  
out the United States was handed  
down today by Federal Judge Learned  
Hand.

The injunction has the effect of  
a dissolution of the association.

Flowers in Bloom in Kansas.  
By the Associated Press.  
TOPEKA, Kan., Feb. 2.—Wild  
flowers are in bloom and wheat is as  
green as in spring, an almost un-  
precedented condition for early Feb-  
ruary, says the weekly report issued  
today by the Weather Bureau.

The Post-Dispatch  
Christmas Festival  
Fund  
All the lists of contributors to  
the Post-Dispatch Christmas  
Festival Fund that have been re-  
ceived to date and not hitherto  
printed will be found on page 28.

rooming house, had identified the four men as occupants of the room during the evening. The men told of a drinking bout, followed by a general brawl, but denied that Stevenson had been killed during the fight and denied knowledge of his death. They had been held at the city jail since the crime.

"We do not have to explain everything these mediums do," declared the speaker. "Just because something has not been explained is no proof that spirits are responsible for it. All sorts of trickery is possible. Men of science cannot leave out the fact that they have exposed every known fraud that is committed. They have taken the cases of the most celebrated mediums—the cases held out as proof of the existence of spirits—and have exploded them. Houdini can perform tricks which appear far more wonderful than most of the things these mediums do. He is a 'magician' and not a 'medium'. He tells you frankly that he is fooling you. He is not a medium."

"Some of the proofs which the spiritualists have related to me of the cases of the Egyptian and Chinese who were arguing about the ancient culture of their respective

was brought from this repository. It was a moment of great expectations. The envelope was opened, and when she said she had received, and the envelope was opened. There was found that there was not the slightest resemblance between the two. They were wholly irrelevant. Sir Oliver admitted this at the time, and said it was a great disappointment.

Sir Oliver made no reference to such an incident when he was in St. Louis.

Prof. Jastrow said that the demonstration took place after the death had failed. "The possibility of fraud was so great that it was no test at all," he said. "It was entirely possible for the mediums to have conversed with each other."

It also will be recalled that Sir Oliver made frequent reference to the mediæmic powers of Mrs.

## 'ROME TODDLED BEFORE IT FELL,' REFORM SLOGAN

**Brown U. Undergraduates  
Begin Campaign for Re-  
form of Manners and  
Morals of Younger Set.**

**'PETTING PARTIES' AND  
THE 'BARE KNEE KISS'**

**Among Specific Aims Are  
Abolition of the Extreme  
Dances, Including the  
'Camel Walk.'**

Special to the Post-Dispatch.  
PROVIDENCE, R. I., Feb. 2.—  
A reform of manners and morals of  
the younger set has been inaugu-  
rated by leading representatives of  
the undergraduate body of Brown  
University.  
Among the specific reforms are  
abolition of:  
"The bare knee kiss."  
"Petting parties."  
The "toddle" and similar extreme  
dances.  
Parties continued until after  
breakfast.  
"Rome toddled before it fell,"  
might be termed the slogan of the  
reformers.

Already something has been  
achieved by the denunciation by the  
Mothers' Club of dances for children  
of 14 years and younger which  
last later than 11 o'clock. The next  
step is setting a 2 o'clock limit for  
college dances, whether "proms" or  
in fraternity houses. If this rule is  
not adopted by the student body, the  
fraternity alumni are expected to  
take prompt action.

**College Papers Comment.**  
A state of affairs known to exist  
in many college towns and in  
every city of any size in the country  
was dragged into the light by  
the Brown Daily Herald in an edi-  
torial, "Quite a Distance This Side of  
Paradise," in which the writer said:  
"The modern age of girls and  
young men is intensely immoral and  
immoral seemingly without the pres-  
sure of circumstances. At whose door  
we may lay the fault, we cannot tell.  
Is it the result of what we call the  
emancipation of woman, with its  
concomitant freedom from chaper-  
onage, increased intimacy between  
the sexes in adolescence, and a more  
tolerable viewpoint toward all things  
unclean in life? This seems the only  
logical forbear of the present state.  
And are the girls causing it now, or  
the men? Each sex will lay the  
blame on the heads, or passions, of  
the other, and perhaps both sexes  
are equally at fault."

"Whoever the fault may be (and  
that is not such an important ques-  
tion, since both sexes are equally  
immoral), the whole character of  
social relations among younger peo-  
ple is lamentable. The modern  
dances are disgusting—the "toddle"  
and its variations and vibrations, the  
"whimmy" and its brazen pandering  
to the animal senses, and the worst  
offering of jazz, the "camel walk."  
"It is not only in dancing that this  
immorality appears. The modern  
social bud, drinks, not too much  
often, but enough; smokes consider-  
ably, swears unguardedly and tells  
stories. All in all, she is a most  
frivolous, passionate, sensation-seek-  
ing little thing."

**Early Indignation Passes.**  
To say that the Brown Herald's  
editorial "started something" is put-  
ting it mildly. The first reaction was  
one of indignation. But that was of  
brief duration. It quickly settled  
down to grave acknowledgment that  
a real evil had been truthfully de-  
picted and a movement toward re-  
form was instituted.

On the following day the Brown  
Herald admitted that "the article  
was frank."

"The men will go just as far as the  
girls will let them; no credit to them  
for that, certainly," said the editor.  
"But the fairer sex have the 'yes and  
no' and are the cause, and hence the  
blame, for the trend of events, not  
simply at Brown, not merely in  
Providence, but over the whole coun-  
try."

"History tells us that when society  
becomes corrupt women degenerate  
much faster than men, and in the  
end bring about the collapse in soci-  
ety that wrecks nations and civiliza-  
tion. Rome 'toddled' before its  
fall."

"We feel that national prohibition,  
not of itself, but in the disregard  
that it created for law and the ob-  
servance of law, has had much to do  
with the present state of affairs. It is  
time to pull a halt. The college  
man, supposedly the most cultured  
and the most reasonable member of  
society, is in a position to pull the  
halt. And we want material reaction  
on the part of Brown men and a firm  
stand against the degeneracy and  
leanness that is becoming too char-  
acteristic of our 'modern' good soci-  
ety."

**Modern "Bare Knee Kiss."**  
The "bare knee kiss," a side issue  
of the reform campaign, is a direct  
outcome of the habit among green  
girls of wearing socks, or of turning  
their long hose down over the calf of  
the leg. Old-fashioned kissing hav-  
ing apparently become stale through  
custom, a practice has grown up, it is  
declared, of kissing girls thus attired  
on their knees. Some mothers have  
had to scold their daughters to

wear "half-hose" or "sock-style" stock-  
ings.  
"Boys don't make love nowadays  
the way they did when you were  
young, mother," expostulated one  
young woman who was undergoing  
rebuff. Her mother unhesitatingly  
agreed with her.  
It is a matter of general knowl-  
edge that the corset is no longer part  
of some girls' party apparel. Here,  
as elsewhere, the ladies' dressing  
rooms at dances become the reposi-  
tories of the stays of those who, un-  
der the vigilant eyes of their moth-  
ers, have donned these articles be-  
fore leaving home.  
"Petting parties," as they are  
termed here, are all what the phrase  
implies. The automobiles parked be-  
hind the university building where  
dances are in progress offer a con-  
venient retreat for couples seeking  
greater privacy than the dimly-  
lighted corners of a gymnasium.  
Providence is making an effort,  
thanks to the young men of Brown,  
to set its house in order as regards  
the relations of the sexes in adoles-  
cence. And well conceded within  
the bud of the reform is the hope  
that the remainder of the country  
will heed the movement and follow  
Brown's lead.

## ONE OF THREE MEN EXONERATED IN EAST ST. LOUIS HOLDUP

**Jury Accepts Statements of Two  
Others That William Metzger  
Was Not Implicated.**

A jury in the Belleville Circuit  
Court yesterday afternoon accepted  
the testimony of Frank Contoni and  
James Howard against that of Louis  
Peterson that William Metzger was  
not implicated in the holdup of the  
William Garvey saloon in East St.  
Louis, Nov. 3, last year, when \$1309  
was taken by the robbers.

Contoni and Howard, who were  
indicted with Metzger, testified that  
Metzger was not with them when the  
holdup took place, while Peterson,  
one of the victims, declared that  
Metzger pointed a revolver in his  
face. Contoni and Howard con-  
victed Metzger before Judge Gillham  
sentenced them to an indeterminate  
term in prison. The jury in the case  
was out an hour and then returned  
a verdict of not guilty against Metz-  
ger.

**Announce for FRIDAY**  
A Sale of Matchless Values in  
**BLOUSES**

On the anniversary of  
last year's stupendous  
event, we offer even  
greater savings.

Just a year ago, Friday, we held the biggest  
Waist sale of our career. Crowds thronged the  
store all day long. So great was the public re-  
sponse to our advertisement, that we ran short  
of merchandise.

This year—this Friday—we are pre-  
pared. Not a chance of anyone being  
disappointed, so vast is the Blouse as-  
sortment offered.

Some manufacturers contributed  
their sample lines—others sold us  
regular stock at cost and less. We  
didn't rest until we had gathered to-  
gether into one vast sale group fully

## An Unusual Sale of Tailored Pongee Blouses

at \$2.98

WE have just received a special purchase lot of these very popular Blouses. This will come as a most acceptable piece of news to many people who recognize the smartness and real service which Blouses such as these possess.

These are especially desirable in style. Several different designs are offered. Among them a model with a long roll collar, edged with a narrow double plaited frill, and the clever little Buster Brown collar model.

The suggestion of new pongee Blouses is alone enough to arouse interest, but when it is added that they are available at such a low price, the interest is such as to grow to the point of enthusiasm.

The Blouses come in sizes 34 to 46.

(Third Floor.)

## Special Selling of Bungalow Aprons

at \$1.19

THE average housewife seldom finds herself with too many Bungalow Aprons; therefore, this special offering will find favor with those who wish to select one or several more at extraordinary savings.

These are made of good quality gingham, in checks or large plaids. Come in open side, slip-on or open shoulder styles. The pockets, neck and sleeves have trimmings of rick-rack braid, or piped with contrasting colors. All have sash backs.

(Second Floor.)

## Thursday Specials on THRIFT AVENUE

(Second Floor.)

## A Sale Extraordinary of Gingham Wash Dresses

15 New Styles

\$2.98

Sizes 36 to 46

Wash Dresses of the Highest Quality—Splendid Materials—All New and Fresh—Excellent Models—Every Dress Carefully Made—These Are the Important Features of This Event.

Aside from the splendid quality of materials used in these Dresses, the style qualities are not to be overlooked. Far and away from the homeliness and commonplaceness of the old-time house Dresses, these convey a distinctive charm which is most acceptable.

In the plain colors or in the snappy checked or plaid combinations with pique or contrasting gingham trimmings, they are in every instance highly desirable.

The sale group presents fifteen different styles, and various combinations of materials are used in the making of the different models that embrace this unusual collection.

The illustration suggests the styles. It is necessary to actually see the Dresses, however, to fully appreciate how they measure up in every detail to the high standard set forth in this announcement of the sale.  
(Second Floor.)

A dependable grade felt-base Floorcovering, for kitchens, bathrooms, etc. 2 yards wide.  
(Downstairs Store.)

## FOR DEVELOPMENT OF WATER POWER IN THE OZARKS

Mountain Members of Missouri Legislature to Seek State Aid in Comprehensive Schemes.

Special to the Post-Dispatch. GALENA, Mo., Feb. 1.—Development of the water power resources of the Ozarks of Missouri is contemplated in the proposed appropriation measure being prepared by members of the Missouri State Legislature, who represent counties south of the Missouri River. A definite policy has been decided upon and proposals ranging from surveys to schemes to spend more than \$100,000,000 on projects have been under discussion.

Representative R. S. Tromley, one of the men most interested in the proposals and who hails from this (Stone) county, has a vast fund of information on the subject. He has made a careful study of the engineering work on a great dam at Powersite, near Branson on the White River and points to that project as a "sample" of the possibilities in the scheme.

**Powersite Dam Cited.**

The Powersite dam, which generates 18,000,000 horsepower and is said to be the third largest plant of its kind in the United States, not only has utilized the water weight of the river, but has made of Lake Taneycomo one of the most ideal vacation spots in the United States, according to Tromley. The lake is more than 18 miles long and aver-

## ONLY BID FOR COUNTY ROAD BONDS IS ON BASIS OF 88.61

Offer is \$5, but Company Asks for \$17,920 for Services in Selling \$280,000 Issue.

The St. Louis County Court opened bids for \$280,000 of 4 1/2 per cent road bonds today.

The only bid was that of Whitaker & Co., which bid \$5, but asked for \$17,920 for services in selling the bonds. It was pointed out that this commission meant that the county would net only \$5.61 on the bonds. The State law specifies that no such bonds shall be sold under \$5. A representative of Whitaker & Co. stated that his firm's attorneys had advised that the Whitaker bid complied with the State law.

Representatives of other bond companies present expressed an opinion that such a procedure was not legal. The Court took the bid under advisement.

Several miles in width. It has become a popular rendezvous for fishermen in the last several years. Combination of utility with beauty of development of the Ozark region forms one of the most convincing arguments the "mountain members" of the Legislature use. The commercial possibilities of a State-owned project are unlimited they declare. They point to the fact that even with great amount of reserve water power supplied in the Taneycomo Lake in White River, the private corporation, which owns the concession, is planning to construct another dam several miles up the river.

**Would Provide New Water Route.**

It is said that a license already has been granted for the construction of a 200-foot dam at Cotter, Ark., which will back up to Powersite, a distance of almost 135 miles by river route. With the proposed dam above Powersite, this will constitute the first of a chain of lakes, which, with locks, will provide water transportation through an almost virgin country.

## HEROES GRIND ORGANS IN STREETS OF LONDON

Some Who Were Officers in War Hide Their Identity Behind Masks.

LONDON, Feb. 2.—A score of men with barrel organs may be found almost any afternoon in the shopping centers between the Marble Arch and Piccadilly Circus. They are former service men, many of whom were disabled in one way or another.

Ordinarily this industry would not be permitted, but the police do not interfere with ex-service men who can produce their papers. If they find a man collecting too big a crowd they move him to another spot. This sometimes happens when the man puts upon his organ one of those touching manifestoes, such as this one, displayed by one ex-Corporal:

"Any work taken. I feared no foe for King and country. I fear no shame for wife and family." The ex-soldiers pay about half a crown a day for hire of the organ and make from 5 to 30 shillings a day. The last sum is exceptional, due to some particularly piteous disablement appealing to the shopping crowd. Some of the cripples have to hire a boy to drag the organs about. A man who happens to be moved on by a policeman is sure of a shower of coppers from the passers-by.

A few of the organ-grinders were officers, some of whom wear masks. There is one to be seen in Regent street whose name was famous in the racing world. He has a row of medals. He was badly disabled and has been driven to ask the charity of shoppers. A few frauds have been discovered among these "heroes of the gutter," but they are very rare.

**THE FOUNDER'S COMMITTEE OF THE** women's organization of the St. Louis University, which is holding its annual meeting at the fund headquarters at the university at 10:30 tomorrow.

## 20-STORY FLATIRON BUILDING PROPOSED

Projected Film Exchange Unfavorably Received by City Plan Commission.

A proposal for moving picture interests to erect a 20-story flatiron building, to be used as a film exchange, on the triangle at the intersection of Lindell avenue and Olive street, at 3400 Olive, was unfavorably received by all members of the City Plan Commission who attended yesterday's meeting of the commission in the Municipal Courts Building.

The proposal was put before the commission in a letter from William H. Gruen, an architect, who stated that he had been retained by parties interested in the building. To permit the erection of a building of that height at this location the city zoning ordinance would have to be amended and Gruen stated that he would like an expression from the members of the City Plan Commission as to their attitude on changing the ordinance for this purpose.

Gruen suggested that such a building standing opposite the broad Lindell cutoff, with its parked cars, would be an outstanding landmark and would justify a change in the zoning ordinance. Chairman Russell of the commission requested each member in turn to state his attitude on the proposition, and all said they would not favor it. No further action was taken on it.

Plans for this building were explained to the Film Board of Trade at a luncheon yesterday and it was said practically all the space would be required to house film exchanges in St. Louis. Each floor would contain between 5000 and 6000 square feet. It was said that the film interests consider this a favorable location for such a building and that they would like to have all film companies housed under one roof.

## COMMITTEE RECOMMENDS \$30,000,000 FOR NAVAL WORK

Report to House Carries \$395,501,444, Reduction of \$284,011,287 From the Estimates.

By the Associated Press. WASHINGTON, Feb. 2.—Nearly half a billion dollars will be required to complete the great naval building program embarked upon in 1916, the House Appropriations Committee estimated today, in reporting the annual naval appropriation bill for the fiscal year 1922.

The committee said that while the total of completing the program was originally placed at \$344,700,000, increased cost of materials and labor probably would increase the total cost to \$372,931,000, of which \$338,270,000 has been appropriated.

The bill reported today, which carries a total of \$395,504,444.23, provides \$30,000,000 for continuing construction next year.

The bill as it reached the House today carried \$37,773,123.77 less than the amount appropriated a year ago and \$284,011,287.24 less than the amount requested by the Navy Department.

Besides the cut in the enlisted personnel of the navy from 143,000 to 140,000, heretofore announced, the committee also cut the Marine Corps from 26,400 to 20,000 enlisted men. The total appropriation for aviation is \$6,912,431, a reduction of \$2,658,569.

## MISSING 'OFFICIAL' OF THEATERS IS ARRESTED

John Theiss, Held in Milwaukee, Has \$450, Says He Spent Rest of \$2800.

John Theiss, 21, assistant manager of Loew's Garrick Theater, who was arrested in Milwaukee yesterday, had followed a vaudeville contortionist, Florette, there. After Theiss' sudden departure from St. Louis Monday it was found that there was a shortage of about \$2400 in the theater's cash, which had been in his custody.

Theiss and the contortionist were arrested, but the woman later was released. Theiss had only \$500 when arrested. "I spent the rest," he told police. "He didn't spend it on me," Florette said. Theiss said he would waive extradition proceedings.

Attaches of the theater told the police that Theiss had called a vaudeville actress in Milwaukee on long distance, telephone Sunday night.

**Anti-Cigarette Bill Opposed.**

Special to the Post-Dispatch. JEFFERSON CITY, Feb. 2.—The Senate Committee on Criminal Jurisprudence today reported unfavorably Senator Senecker's anti-cigarette bill. This kills the bill unless the Senate should place the bill on the calendar, notwithstanding the report of the committee, which is not considered probable.

## WIDE RANGE OF INTEREST RATES IN BIDS FOR STATE FUNDS

State Fund Commission Asks Bank Commissioner to Consider 136 Offers.

JEFFERSON CITY, Mo., Feb. 2.—Unprecedented offers of interest in the bids for State funds submitted to the State Fund Commission yesterday by 136 Missouri banks have caused the commission to decide to ask Bank Commissioner Hughes to sit with it today while it is determining to which banks to entrust the \$12,743,649 involved. The interest offered ranges from 2.75 per cent to 5.05 per cent, while the majority range above 4.50 per cent. The old contract was with 34 banks, the average interest rate being 3.71 per cent.

Gov. Hyde, State Treasurer Thompson and Attorney-General Barrett comprise the commission. Barrett intimated that the high interest and the wide range offers did not indicate a healthy banking condition.

St. Louis banks are not expected to get much if any of the funds, as their bids all are low. One bank in Kansas City, the Midwest Reserve Trust Co., put in 14 separate bids, each for one-eighth of the funds and ranging in interest offered from 4.25 to 5.55 per cent.

## ANNEXATION OF TERRITORY BY UNIVERSITY CITY PLANS

The St. Louis County Improvement Association of Vinita, Mo., meeting last night in the Methodist Episcopal Church at Harrison and Page avenues, by a straw vote of 2 to 1, decided to ask University City to annex the territory including Vinita Park, Vinita Terrace, Vinita and Wheaton, lying west-northwest of University City, a committee of three was appointed to submit the proposition to the Council of University City.

Sheriff John F. Willmann of St. Louis County, who formerly was Marshal of University City, pointed out that the annexation proposition would add a tax of 42 cents on \$100 valuation to that which residents of the district now pay to the county, but that the annexation would probably be reduced as University City wiped out its bonded indebtedness. He also stated that the proposition would divert the Normandy School District, which the territory wishing to be annexed is a part, as it would state transfer of two of the large schools to the jurisdiction of the University City, which could be done only by a special vote of the University City taxpayers.

On the other hand, Willmann said, the annexed territory would benefit by increased efficiency in police and fire protection.

## Scruggs - Vanderhoort - Barney

Store Hours: Daily, 9 to 5:30; Saturday, 9 to 6 Olive and Locust From Ninth to Tenth

### Items of Interest

From a Fashion Journal

"THE moment one lays aside furs it is necessary to have some sort of a lingerie blouse to soften the hard lines of the coat collar. This Spring these blouses are usually made of fine French voile, for they are trimmed with a great deal of hand hemstitching and drawwork and it is easy to do on this material because the threads pull easily." Ready-made, these blouses are expensive, but if you make them yourself the cost is considerably reduced. Imported French and English Plain Voiles are from \$1.00 to \$2.75 a yard. White Goods Shop—Second Floor.

### A Scroll Design

—On the Lace Draped Veil is frequently in a soft color against the filmy black mesh. Worn with a smart, new narrow-trimmed hat, the effect is delightful. The newest Face Veils are shown in women designs, but the ones with brightly colored and black shenille dots predominate. Formerly Veils were worn by the ultra-fashionable, but this season they are so popular that one must use discernment in order to select the Veil which has just put in its appearance. Veil Shop—First Floor.

### Binge Lace

If you have been wondering what kind of trimming you can buy for the children's Summer underwear, which is durable and yet will lend that daintiness which you so much desire for the small garments, ask to see some Binge Lace. It comes in various widths and designs, with insertions matching the attractive edgings. Of course there isn't nearly so much wear and tear on lingerie for grown-ups, but the pretty designs make Binge Laces desirable as trimming for it, as well. Lace Shop—First Floor.

### La Fille Flouncings

—are the cleverly designed new Flouncings which will take first place for the thin Summer frock. Delicate pastel shades, in fine voile or imported organdy, are greatly in favor, but ruffling and tucking for one of the lovely fluffy dresses entails no little labor. This Flouncing comes already tucked or ruffled. There is one in palest orchid, with clusters of tiny crispy tucks, alternating with small white embroidered dots, which is simply too quaint and appealing to remain long in its box. Embroidery Shop—First Floor.

### Alarm Clocks

**\$1.69**

ALARM Clocks are dependable callers, and you will never miss your train or appointment if you own one.

Good Morning Alarm Clocks, the kind which keep good time; 30-hour clocks, back-bell type, formerly priced \$2.50, now priced \$2.24 each.

Regular \$2.50 "Early-Up" Alarm Clocks, specially priced \$1.69. Cutlery Shop—First Floor.

## "Match" says Paris for 1921!

A COIFFURE to match a gown! A hat to suit a shoe! A pocketbook in keeping with a glove! That is the fashion keynote of 1921. It matters little whether you have few or many costumes. It matters much that each be complete and harmonious in every detail. You will find that the February number of Harper's Bazar has specialized in even the smallest item of lovely woman's apparel. No single thing has been forgotten. It anticipates:

- The Newest Coiffure
- The Latest Shoe
- The Perfect Coat Frock
- The Exact Hat to Match
- The Spring Cape
- The Foulard Gown It Covers
- The Youthfully Bouffant Dancing Frock
- The Regally Clinging Evening Gown
- The New Summer Materials
- The Latest Version of the Gilet
- The Season's Color Combinations

A Strimetz creation of black moire which emphasizes the perfection of detail every fashionable woman will demand for the spring and summer. It is one of the many "Costumes Complete" in the February SPRING FORECAST NUMBER of HARPER'S BAZAR. Black from head to toe, it demonstrates the effectiveness of the monochrome costume.

### The February Spring Forecast

## Harper's Bazar

**THE SPRING TAILLEUR**—that is a woman's first thought when considering the new wardrobe. A variety of fetching models from Worth, Premet, Molynex, Doucet and Madeline and Madeleine. Not only more but smarter fashions appear in Harper's Bazar than any other fashion magazine in America. In the February SPRING FORECAST NUMBER of HARPER'S BAZAR.

G. K. CHESTERTON in his latest fantasy—"THE YELLOW BRID"—a short story that charms while it puzzles. Undoubtedly you will lose Chesterton's lecture during his stay in this country. Surely you will want to have read his latest fiction.

**HOW WILL YOU WEAR YOUR HAIR?** The French say a woman is never really old until she stops experimenting with new hairstyles. Suggestions from Ete show the trend toward the classic and simple outline. He solves the problem of bobbed hair with evening dress! Nowhere else but in the February SPRING FORECAST NUMBER of HARPER'S BAZAR.

W. L. GEORGE (and he needs no introduction to an American audience that can scarcely wait for his fire-lens you to offer new delights)—in "WINTER ROSES"—did you ever lose a more charming title? But the story—ah, that's the secret. Read and decide for yourself.

**UNUSUAL MATERIALS FOR TUB FROCKS.** The new quilted fabric which promises to create a furor. The latest adaptation of embroidery—a plaid embroidered on cheviot. Foulards such as you never dreamed of. New muslin and kid trimming for taffets. The advent of summer velvet. Every latest accessory in the February SPRING FORECAST NUMBER of HARPER'S BAZAR.

HOLWORTHY HALL—just to power that we don't call ways have to go across the Atlantic to get good music and that we are not always to be "literary columnists." "FRED—DIE THE FIFTH"—negative of almost anything—im't it—so we'll leave something to your imagination.

**DAYTIME FROCKS**—dozens of dinner gowns—dozens of evening gowns! Worth, Charlotte, Alice Bernard offer tailors. Doucet, Drecol, Lelong give their best for evening wear. Poirer, Lanvin, Molynex, Chanel tell what to wear to tea. Beer does not forget the delightful negligee hour—all in the February SPRING FORECAST NUMBER of HARPER'S BAZAR.

### Valentine Paper Novelties for Parties

ESPECIALLY attractive are these novelties for celebrations of the Saint's Day. There is still time to send out invitations, and this showing includes very clever ones.

- There are
- Napkins.
- Paper Plates.
- Paper Luncheon Sets.
- Nut Cups.
- Place Cards.
- Tallies.
- Seal Hearts.
- Cut-Outs.
- Festoons and garlands.
- Runners.
- Caps.

Stationery Shop—First Floor.

ANNEXATION OF TERRITORY BY  
UNIVERSITY CITY PLANNED

The St. Louis County Improvement Association of Vinita Park, setting last night in the Methodist Episcopal Church at Harrison and Olive, decided to ask University City to annex the territory including Vinita Park, Vinita Terrace, Merriam and Wheaton, lying west of the University City line. The committee of three was appointed to submit the proposition to the council of University City.

Sheriff John F. Willmann of University City, who formerly was marshal of University City, pointed out that the annexation would add a tax of 62 cents on the \$10 valuation to that which the residents of the district now pay. He said, however, that the amount would probably be reduced as soon as University City wiped out its indebtedness. He also stated that the proposition would disturb the Normandy School District, which the territory wishing to be annexed is a part, as it would necessitate transfer of two of the largest schools to the jurisdiction of University City, which could be done only by a special vote of the Normandy School District University City taxpayers.

On the other hand, Willmann said, the annexed territory would be benefited by increased efficiency in fire and fire protection.

## REPORT TODAY TO URGE \$300 MORE FOR PATROLMEN

House Committee Agrees on Program to Add \$500,000 to Annual Payroll, Half of Amount Asked For.

\$500 TO \$600 FOR HIGHER OFFICERS

Favorable Action Follows Dining of Committee by Policemen—Senate Committee Still to Act.

By a Staff Correspondent of the Post-Dispatch.

JEFFERSON CITY, Feb. 2.—The \$1,000,000 St. Louis police salary increase bill was cut to a half million increase by the House Municipal Corporation Committee last night and was ordered reported favorably to the House today for increases totaling approximately that amount. Men in the department of the rank of Sergeant and below are granted an increase of \$25 a month in the bill as it comes from the House Committee, while increases for most of the higher officers are \$500 or \$600 a year.

The changes, as agreed upon by the committee were:

	Present Salary	Salary As Proposed
Chief	\$5,000	\$5,500
Assistant Chief	3,500	4,000
Detectives	3,000	3,500
Inspector	3,000	3,500
Secretary to Chief	2,000	2,500
Secretary to board	2,000	2,500
Bertillon superior	2,100	2,500
Sergeant	2,400	2,600
Captains	3,000	3,500
Lieutenants	2,500	3,000
Drillmaster	1,800	2,000
Sergeant	1,500	1,800
Patrolman	1,000	1,200
Probationaries	1,000	1,200
Turkeys	1,200	1,500

Senate Committee Still to Act.

The committee, a majority of the members of which are St. Louisans, met with the Senate Municipal Corporations Committee in a joint public hearing and agreed in advance that the bill should be passed for some increase, had little difficulty in arriving at the exact figures when it retired from the joint session to an executive session of the House Committee alone. The Senate Committee has not acted on the bill.

The increases granted by the House Committee are approximately half the amount asked for by the police and are exactly the amounts which persons who have been on close terms with the lobby of St. Louis policemen, who Monday night gave a dinner to a large number of members of the Senate and House, expected to get.

Although the bill was introduced for \$100 a month increase, almost all down the line, from Chief to probationary patrolman, it has been generally understood that the plan adopted by the policemen was to ask for twice as much as they expected to obtain.

Previous Increases.

While there have been no salary increases granted the higher officers of the department in 22 years, the Sergeants and patrolmen have received two increases totaling \$25 a month in the last four years. In the Legislature of four years ago they received a \$10-a-month increase, and two years ago a \$15 increase. If the bill the committee last night voted to report favorably becomes a law, the total increases granted the officer of lower rank in four years will total \$50 a month.

The methods used in passing the salary increase bill four years ago became the subject of a grand jury investigation after the adjournment of the Legislature, testimony tending to show that bribery methods had been used being given before the grand jury. Several indictments were returned, but the cases were dismissed on a technicality.

In arranging for representation before members of the Legislature this year in their effort to obtain an increase, policemen in St. Louis were assessed \$1 each. Groups of policemen have made several trips to Jefferson City on the bill, devoting their time particularly to the St. Louis members, who controlled the Municipal Corporations Committee of the House.

Banquet for Committee.

Monday night they arranged a banquet at the Central Hotel, which was attended by 30 legislators. The police officers giving it were: Assistant Chief Gillaspay, Capt. Albert Schwartz, Lieut. Moran, Sergt. D. J. Sullivan and Patrolman Frank Steffen.

At the public hearing last night, C. Orrick Bishop, Judge Advocate of the department, presented the argument for the \$100-a-month increase, devoting himself principally to the increased rents, increased cost of uniforms and the higher living cost generally.

While not opposing an increase, Assistant City Counselor Hamilton and H. A. Rosskopf, legislative representative of the Board of Estimate and Apportionment, opposed the amount asked. They recommended increases which they said would total \$298,500.

After Bishop had concluded his presentation of the case, which was general for all the men in the department, Capt. Schwartz made a special plea for the higher officers, not mentioning the patrolmen. As though thinking Schwartz was seeking increases for the higher officers only, Patrolman Steffen hurried forward with a statement to the effect that the men who did the real work, braved the real dangers and faced the stormy nights, were the patrolmen.

Hamilton and Rosskopf, opposing

the large increases, told the committee that the tax rate in St. Louis was at the legal limit, and that if the increases were granted other municipal activities would have to be curtailed. They pointed out that the law provides heavy penalties for any municipal officer who interferes with

the appropriation asked for by the Board of Police Commissioners.

Steel Official Fined \$15,000.

By the Associated Press.

BOSTON, Feb. 2.—Alexander F. S. Blackwood, former vice president and general manager of the Union

Steel Casting Co., pleaded nolo contendere to two counts of an indictment charging conspiracy to defraud the United States in Federal Court yesterday, and paid a fine of \$7500 on each count. Blackwood and four others were charged with fraud in connection with the manu-

facture of steel castings for the Navy Department.

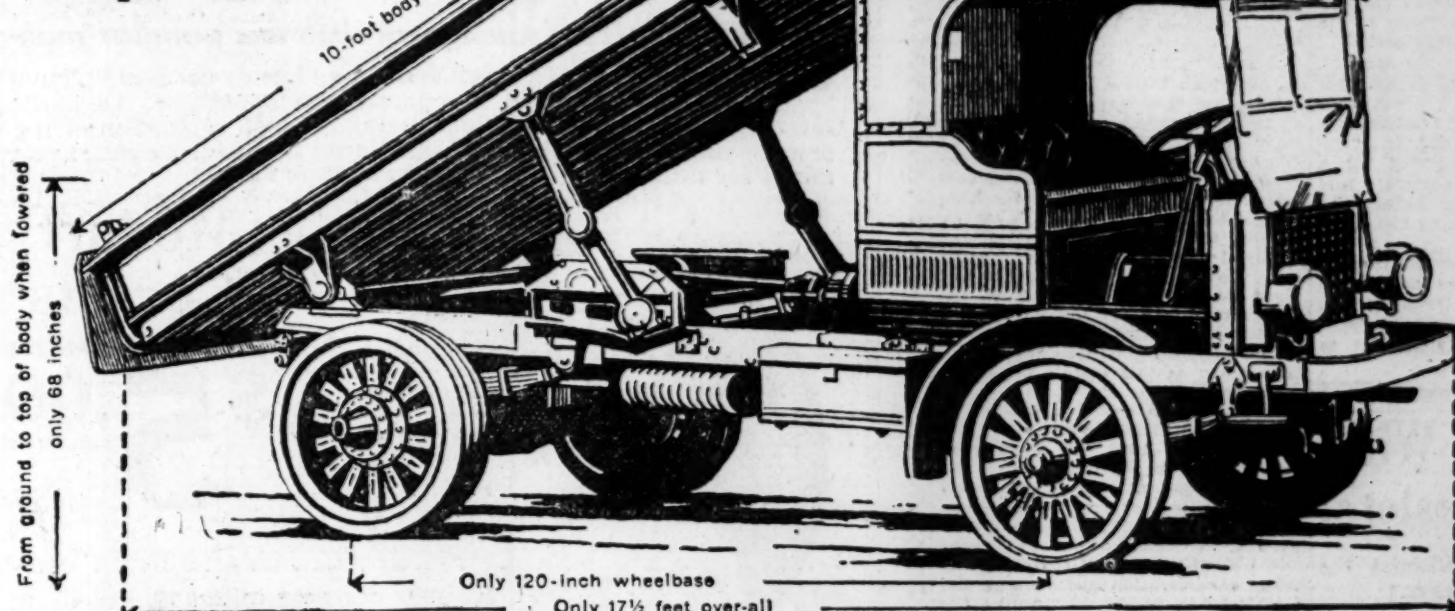

How to Mark Parcels to Austria.

WASHINGTON, Feb. 2.—A suggestion that senders of parcel post packages to Austria mark them for delivery to the poor, or with some

similar notation, to indicate the senders' wishes if undeliverable to the original addressee, is contained in the current Postoffice Department bulletin. Accumulated charges for return of such packages to the United States, the statement said, amounted to from 40 to 55 cents.

### KEEP URIC ACID OUT OF JOINTS

Tells Rheumatism Sufferers to Eat Less Meat and Take Salts

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly, keep the feet dry, avoid exposure, eat less meat, but drink plenty of good water. Rheumatism is a direct result of eating too much meat, and other rich foods that produce uric acid which is absorbed into the blood. It is the function of the kidneys to filter this acid from the blood and cast it out; the pores of the skin are also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work, they become weak and sluggish and fail to eliminate the uric acid which keeps accumulating and circulating through the system, eventually settling in the joints and muscles causing stiffness, soreness and pain called rheumatism. At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is said to eliminate uric acid by stimulating the kidneys to normal action, thus ridding the blood of these impurities. Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and is used with excellent results by thousands of folks who are subject to rheumatism.

### Don't Fuss With Mustard Plasters!

Musterole Works Without the Blister—Easier, Quicker.

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole. Musterole is made of pure oil of mustard and other helpful ingredients, remixed in the form of the present white ointment. It takes the place of mustard plasters, and will not blister. Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia).

Read the doctor's full statement soon to appear in this paper. Bon-Opto is sold and recommended everywhere by Druggists.

### DEBS IN STATEMENT DENOUNCES PRESIDENT

Says Only Fear Was That He "Might Be Indebted for My Liberty to Woodrow Wilson."

By the Associated Press.  
ATLANTA, Ga., Feb. 2.—Eugene V. Debs, Socialist leader, now serving a 10-year sentence in the Federal prison here for violation of the espionage law, was not "surprised nor disappointed" over the President's refusal to commute his sentence, according to a statement he issued here through his counsel, Samuel W. Castleton of Atlanta. "It was my only fear," the statement said, "that I might be indebted for my liberty to Woodrow Wilson. My record, good or bad, is at least consistent and that is the only way it could have been smirched." The statement referred to the President as the "most pitiful figure in American history," it said, "ever retired so thoroughly discredited, so completely rebuffed, so overwhelmingly impeached and repudiated as Woodrow Wilson. Shortly after the November election, his private secretary made a pitiful plea for him, saying that all he craved was the love of the people. This plea was stamped by the American people with the one word 'denied,' the one word he wrote on the back of the recommendation for my pardon." After stating that he was "never in better physical condition in my life than I am at this hour," the statement continued: "Mr. Palmer called attention to the fact that I shall be eligible to parole Aug. 11, 1921. In answer to this, I have to say that I shall not apply for parole, nor accept it. I shall serve my term to the last day, or leave here with an unconditional pardon. I came from my convictions and I shall not betray them for any paltry consideration such as a parole. I may be in prison, but unlike this man who keeps me here, I am not an exile from my own country. When I leave this prison I shall go unrepentant." "Senator Capper showed the other day that out of \$4,000,000 annual expenditures for this country that 97 per cent is spent on war, the result of war and preparation for war and that 3 per cent is spent on education and constructive work. Those where Wilson stands, I stand for construction instead of destruction and devastation."

### MAN IDENTIFIED AFTER ROBBERY FREED AT HEARING

Witnesses Testify Edward Powers Was Downtown at Time of Holdup in County.  
Justice of the Peace Stecker, at a preliminary hearing yesterday at Clayton, discharged Edward Powers, 26 years old, charged with participation in the robbery of Joseph P. Noser of 5021A Delmar boulevard, the night of Oct. 24, 1919, on For-rythe boulevard, near Washington University. Noser, who is lame, identified Powers as one of three men who lured him into a taxicab and robbed him of \$470 in cash, a gold watch valued at \$50 and a diamond ring valued at \$150. Noser was thrown out of the automobile after the robbery without his crutches, and crawled almost half a mile to a street car line. Powers denied the charge and two witnesses testified that he was at a downtown theater at the time of the robbery.

### LENTEN SERVICES AT CATHEDRAL

Archbishop Glennon to Speak Ash Wednesday.  
The Old Cathedral will hold its customary Lenten services every noon, except Sundays, beginning Feb. 3, which will be Ash Wednesday, when Archbishop Glennon will speak. The Archbishop will also speak on Thursday and Friday of next week. The services will begin at 12 noon, with a mass, and speaking will follow at 12:25 p. m. The Rev. William Agnew, S. J., will be the speaker during the first week, and the speakers to follow him are the Rev. J. T. Coffey, the Rev. B. J. Otten, S. J., the Rev. J. L. Gadell and the Rev. P. J. Ritchie. The "40 hours' adoration" will take place Feb. 11 to 13. At 4:45 p. m. every Friday and Sunday there will be Lenten devotions and benediction.

### BROWN U. HEAD ENTERTAINED

Guest of Alumni of School at Noon-day Club Luncheon.  
W. H. P. Faunce of Providence, R. I., president of Brown University, was the guest of honor and the principal speaker at a luncheon Monday given by the Brown University Club at the Noonday Club. He spoke of the necessity of a larger endowment fund for the university, which is needed especially to build dormitories for the students. The high living costs caused most of the boarding houses near the university to close down. Joseph M. Grand was elected president of the club for the ensuing year and John B. Abbott secretary and treasurer. Among the alumni members present at the luncheon were Charles Nagel, John B. Edwards, Dr. W. C. Bittling and Warren M. Chandler.

**Young Woman Sleeps Month.**  
By the Associated Press.  
NEW YORK, Feb. 2.—Awakened from a four weeks' sleep one day after she was to have been married, Miss Yetta Lehman, 21, today said she felt no ill effects and would be wed in a week or two. Attending physicians said she had not been suffering from sleeping sickness and that they were unable to diagnose the malady.

## STORE HELD UP AFTER POLICEMAN DEPARTS

Three Robbers Visit Drug Shop  
at 925 Goodfellow Av.,  
Taking \$180.

Three men who got out of a Ford automobile entered Ernest Beck's drug store at 925 Goodfellow avenue at 10:15 o'clock last night and held up Beck and Pope Dimmitt of 6871 Cates avenue. One of the men pointed a revolver at them and forced them to stand with their backs to the wall. Another robber searched them, taking \$25 and a watch from Beck and \$30 from Dimmitt. He then took \$125 from the cash register and the three robbers ran out and escaped in the automobile. Patrolman Thomas Near had been in the store a short time before the robbery and was not far away when the alarm was given. It was then too late to pursue the thieves.

John Delagorsis of 1532 Mississippi avenue, proprietor of a restaurant near Broadway and Pine street, reported that two men held him up and robbed him of \$150 near his home at 10 o'clock last night.

Burglar Alarm From Bank.  
Richard Hall of 4611 Tyrolean avenue was held up and robbed of \$14 and a diamond ring by two men who waylaid him as he was about to enter his home at 10:15 o'clock last night.

Two men held up William F. Schlerbecker of 227A Angella street last night at Pleasant and Newhouse avenues and robbed him of \$7.40.

The sounding of a burglar alarm at the Southwest Bank, King's highway and Southwest avenue, at 12:20 a. m. today caused policemen to go there. A cellar window was found open. Officials of the bank who were summoned said the window apparently had blown the window open, sounding the alarm. There was no evidence that burglars had entered.

Burglars Damage Safe.  
Hard work at the office of the Steele & Hibbard Lumber Co., 3830 Hall street, netted small profit to burglars early yesterday morning. They forced open the outer door of the safe and the door to the money compartment which contained only \$8, which they took. The damage to the safe is estimated at \$75. When the shop of the National Refrigerators Co., 827 Koeln street, was opened yesterday morning it found burglars had stolen tools valued at \$15.

## TWO MILK PRODUCTION RECORDS WITHIN TWO DAYS

Ten-Gallon-a-Day Mark Announced  
Yesterday Is Eclipsed by Animal  
on Standard Dairy Farm.

It was announced Monday by the University of Missouri that the milk production record for the State had been broken by a Holstein cow owned by F. W. A. Vesper, owner of the Fredmar Farms, south of Jefferson Park, on the Meramec River. The cow's production was 79.2 gallons in seven days, or more than 10 gallons a day.

The Public Welfare Committee of the Board of Aldermen, in the course of its investigation into the milk control of St. Louis, Monday visited the Standard Dairy Farms at Bollinger, Mo., of which George Georges, president of the Standard Catering Co. of St. Louis, is owner, and were shown the official records of Nathalie Jewel Butter Girl, a Holstein there.

The State inspector in charge of these tests being made with this cow showed records that she had produced approximately 705.5 pounds of milk in seven days, which would be at the rate of more than 11.6 gallons a day. The cow produced 29.07 pounds of butter fat in seven days.

## Y. M. H. A. FIFTH ANNIVERSARY

Organization's Symphony Orchestra  
to Play at Meeting Tonight.

The Young Men's Hebrew Association will celebrate the fifth anniversary of its reorganization at its annual meeting this evening at Garfield Hall, King's highway and Enright avenue. A feature will be the overture from "If I Were King" (Adam) and "Scenes From the South" (Nicodemus) by the Y. M. H. A. Symphony Orchestra. Irwin Rosenbloom conducting.

David Sommers of the Federal Reserve Bank will address the membership on the campaign for a new building. Walter L. Freund, president, will preside. A reception for the new officers will follow.

## DRAIN WATER TAKEN AS EVIDENCE

Bartender Alleged to Have Emptied  
Glass of Whisky Behind Bar.

Nathan J. Elliot, 44, proprietor, and Charles Kietz, bartender, in a saloon at 575 De Baliviere avenue, were arrested last night after Kietz is alleged to have emptied a glass of whisky into the drain tank behind the bar. Some of the water in the tank was taken as evidence. Uniformed policemen arrested Philip Pizzo, 47, and his son, Dominick, 19, of 121A Carr street, at 9 p. m. They said they found a still, a barrel of raisin mash and a five-gallon jug and three quart bottles of moonshine whisky in the home.

## Lewis County Society Banquet

The Lewis County Association, composed of those who formerly lived in Lewis County, Mo., will hold its third annual banquet at 8 p. m. Saturday at the American Annex Hotel. The society was organized 15 years ago. Dr. Walter G. Chappell is president.

## Do This For Constipation

THE public should know that there is a vast difference in the action of the various remedies for constipation. Some are "flushes," purge, physic. They gripe and weaken. For lasting effect use a laxative. Dr. Caldwell's Syrup Pepsin acts gently and mildly so that even a tiny baby can use it with safety. It is a compound of Egyptian Sena and other simple laxative herbs with pepsin and pleasant-tasting aromatics. A sixty-cent bottle will last an average family for a month. The largest sale is in the world.

## TRY IT FREE

Send me your name and address and I will send you a free trial bottle of my Syrup Pepsin. Address me Dr. W. B. Caldwell, 511 Washington St., Monticello, Ill. Everybody now and then needs a laxative, and it is well to know the best. Write me today.

## Cuticura Beautifies Your Complexion

The daily use of the Soap cleanses and purifies the pores of the skin, thus preventing blackheads and pimples. The Ointment used occasionally, as needed, soothes and heals any irritation or roughness. They are ideal for the face.

Sample Book Free by Mail. Address: "Cuticura Laboratories," Dept. 100, P. O. Box 100, Portland, Me. Cuticura Soap shows without soap.

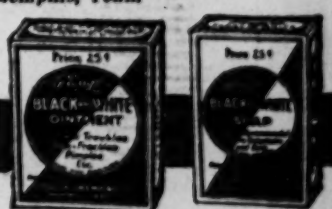

## ONE LITTLE BLEMISH

Will mar your Beauty.

No matter how perfect the features or how prettily groomed, if your complexion is marred by an ugly blemish you cannot possess complete beauty.

Little facial blemishes are easily prevented if the skin is given regular and proper attention. A neglected skin soon loses what beauty it has, becomes old and wrinkled, the pores clog and blackheads and pimples result. A skin cleansed thoroughly each day by a pure antiseptic soap, such as Black and White, is radiant with youth and color. Should you be bothered with freckles, sallowness, liver spots—Black and White Ointment will remove these blemishes when used in connection with Black and White Soap. Black and White Soap, 25c the cake; Black and White Ointment, 25c the package, are sold and guaranteed by all drug and department stores. Free samples will be mailed you upon receipt of the file with this advertisement. Black and White Box 1507, Memphis, Tenn.

## FOR ITCHING TORTURE

Use Antiseptic Liquid Zemo.

There is one remedy that seldom fails to stop itching torture and relieve skin irritation that makes the skin soft, clear and healthy.

Any drugstore can supply you with Zemo, which generally overcomes skin diseases. Eczema, itch, pimples, rashes, blackheads, in most cases give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 50c an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

The E. W. Rose Co., Cleveland, O.

## WISCONSIN BILL TO INSURE EMPLOYMENT

Measure Would Compel Employers to Pay Benefits to Workers When Unemployed.

By the Associated Press. MADISON, Wis., Feb. 1.—A bill to compel employers to pay unemployment insurance benefits to their workers, when unemployed, will be introduced in the Wisconsin Legislature today, backed by the American Federation of Labor.

The measure was prepared by Prof. John H. Commons of the department of economics at the University of Wisconsin and a noted labor economist, with the assistance of six students, whose graduation thesis it is to be.

It would require employers to form mutual insurance companies and pay benefits to the workers they discharge, at the rate of \$15.00 a day for adult men and women and 75 cents a day for boys and girls between the ages of 16 and 18 years.

The unemployed, providing they had worked at least 26 weeks, would be entitled to benefits for a maximum period of 18 weeks on the basis of one week for every four weeks of work.

Would Exempt Strikers. Workers idle as a result of a strike or lockout are not entitled to benefits, and farm laborers, individuals receiving pensions of more than \$500 annually, persons whose annual income exceeds \$1500 and individuals making dependent for their livelihood upon some other persons also are exempt.

State free employment offices, already established, would administer the act in each locality, and would seek work for the unemployed. It is provided, however, that an idle worker need not accept work at a lower rate of pay, where working conditions are less favorable than in the place of last employment, or where a vacancy has been created by a strike or lockout.

If an unemployed worker finds or is offered suitable work in another district, his last employer is given his choice of either paying the railroad fare to the new job or continuing to pay the insurance benefits.

Professor Explains Bill. Explaining his bill, Prof. Commons recently told the local Rotary Club that fear of unemployment was the moving impulse behind most labor difficulties and was responsible for a tendency to prolong each task in order that the week might be drawn to the maximum period. Remove that fear, he said, and labor difficulties would be reduced and production speeded up.

To Guard Against Fraud. Each work affected would be equipped with a "service card," which would show the period he had worked in each position held, and indicate the benefits to which he would be entitled. To prevent trading, sale or pawning of the cards, the act provides a fine of \$100 and 30 days' imprisonment for both buyer and seller.

## HER ENGAGEMENT HAS BEEN MADE KNOWN

Miss Marion Heffernan

MARVIN E. SINGLETON AND  
MRS. ELSA P. LOGEMAN WED

He Was Decorated With D. S. M. for Services as Chief of St. Louis Ordnance District.

Marvin E. Singleton, 49 years old, president of the Missouri State Life Insurance Co. and a director in the First National Bank, was married at 11 a. m. today to Mrs. Elsa P. Logeman, president of the Mound City Coffin Co. and the Hercules Metal Manufacturing Co., at Mrs. Logeman's home, 4294 West Pine boulevard.

Singleton, who was decorated with the Distinguished Service Medal after the war for his services during the war as chief of the St. Louis Ordnance District, is a widower and lives at 37 Washington Terrace, which home he bought about a year ago from the Charles Huttig estate.

Mrs. Logeman is the widow of Wilbur G. Logeman, who died in August, 1918.

The wedding ceremony was performed by the Rev. Ivan Lee Holt, of St. John's Methodist Church. The couple departed for New York immediately afterward. Upon their return they will reside at the Washington Terrace home.

Town Noted for Wines Reported Destroyed.

By the Associated Press. CONSTANTINOPLE, Feb. 2.—The town of Lapsaki, on the east side of the Dardanelles, opposite Gallipoli, was destroyed by fire Monday. It was noted for 2500 years for its fine wines. The population numbers about 2000.

## Social Items

The wedding of Miss Bertha Troilicht and Robert Greve will take place at 8 o'clock this afternoon at the Church of the Immaculate Conception in the presence of about 500 guests. The bride will have her sister, Miss Lucille Troilicht, as maid of honor, and as bridesmaids Misses Florence Schlueter and Gertrude Hemmelmann. Mr. Greve will be attended by his brother, Edward Greve, best man, and the groomsmen will be Richard Walthe and Luther Edwards. Miss Troilicht will wear a Chantilly lace gown over crepe, with a court train of silver cloth lined with pink georgette. Her tulle veil will be held by a wreath of orange blossoms and she will carry a bouquet of orchids and lilies of the valley in silver effect. The ceremony will be followed by a small reception at the home of the bride's parents, Mr. and Mrs. H. A. Troilicht, 2234 Copelin avenue. The couple will spend their honeymoon at Palm Beach and will reside with Mr. Greve's father, Henry Greve, 4605 Lindell boulevard.

An engagement recently made known is that of Miss Marion Heffernan, daughter of Mr. and Mrs. George F. Heffernan of 5123 Clemens avenue, to Festus J. Krebs. The date of the wedding has not been announced.

Mr. and Mrs. B. F. Hickman of Kirkwood have returned from Kansas City, where they were the guests for a few days of Mr. and Mrs. Archibald Morrison Jr.

Miss Mildred Brooks has chosen March 21 as the date of her marriage to Thomas Granville Rutledge, son of Mr. and Mrs. Robert Rutledge of 5443 Page boulevard. The wedding will take place at 8 o'clock in the evening at the home of the bride's father, Dr. Frederick Brooks, 715 Limit avenue, in the presence of the immediate members of the families. The Rev. Dr. Alfred Smith officiating. The ceremony will be followed by a small reception.

Mrs. Dorothy Stickney of 4505 Apple place is expected home in about two weeks from Palm Beach where she is the guest of Mrs. Charles Goodwin Cushing Jr. of Chicago. Among other St. Louisans at Palm Beach are Mr. and Mrs. Wallace Renard, Mr. and Mrs. Mark Steinberg, Mr. and Mrs. R. L. Kable.

Miss Mildred Candy, daughter of Mr. and Mrs. Gilbert Candy of 1815 Kingsbury boulevard, will depart Friday for Madison, Wis., where she will attend the junior prom at the University of Wisconsin. Miss Candy will have as her guest next month, Miss Grace Miller Woods of Indianapolis, whose engagement to W. Carey Payne, son of Mr. and Mrs. A. W. Payne, 5604 Washington court, has been announced. Miss

Woods has set May 19 as the date of her wedding, which will take place in St. Louis.

Mr. and Mrs. V. B. Corby of 26 Windermere place have departed for an extended visit in California.

Mrs. James E. Allison of 5925 Cates avenue and her daughter, Miss Frances Allison, are the guests of Mrs. Whitford Cole of Nashville, Tenn.

Miss Mercedes Groves, daughter of Mr. and Mrs. A. B. Groves of 5419 Maple avenue, has chosen March 31 as the date of her marriage to George Breckenridge Groves, son of Mr. and Mrs. W. Dall Groves, 4247 Page boulevard.

Mrs. Elmer Kiel of 2234 Tower Grove avenue entertained with a luncheon today at the Jefferson Hotel in honor of Miss Ruth Terrell of Chicago. The guests included Misses George Terrell, Harry Terrell, W. A. Browning, Jean Foote and Allan Sothoron.

Miss Alicia Hafner of 4511 West Pine boulevard will be hostess tomorrow to her bridge club, which is composed of members of the Mary Institute class of 1919.

## MORNING CHORAL GIVES FIRST EVENING CONCERT OF SEASON

Theo. Kagle, Tenor, Presented as Soloist, Displays Light, Smooth, Musical Voice.

The Morning Choral Club, under the direction of Charles Galloway, gave its first evening concert of the season last night at the Odeon, and presented as soloist Theo. Kagle, tenor, for his first appearance here. A large audience was present. Kagle, who displayed a light but smooth and musical voice, began bravely with Handel's "Care Selve" from "Atalanta," and "Quando tu cantu" an excellent song by Trippelli, but tapered off into Irish and negro ditties. In his third group was La Forge's popular song, "Supplication."

Songs of merit for women's choruses are not plentiful, but the club contrived to search out, for this program, several excellent numbers. Among them was Rachmaninoff's setting of Heine's poem, "The Lonely Pine"—a song so vivid and exotic, with a very striking piano accompaniment, that one could understand why the Russian seems to begrudge the time he must take from composition in order to make a

living by playing the piano. Other new and admirable numbers were Gustave Ferris's "Near My Father's Dwelling," and two choruses of modernist flavor by David Stanley Smith, "The Sleeping Priestess" and "The Zineali," after a poem by George Eliot. Interesting also was a comedy folk song of Estill County, Ky., "Frog Went a-Courtin'."

Harry T. Burleigh was leaved upon extensively, providing three of Kagle's songs, and one of the choruses. The full membership of the club was not out, but its singing gave evidence of zeal and earnest rehearsals.

## Authority on Sports Dies.

By the Associated Press. NEW YORK, Feb. 2.—Hugh Louis Fitzpatrick, newspaperman, sporting authority and author of books on golf, horses and poultry, died here late last night. He was graduated from St. Francis Xavier College and attended Fordham University. He had been a member of the staffs of the New York Sun and the Evening Post and founded the publication Rider and Driver. He was 62 years old.

## DIFFERING TASTES

The Chinese have a way of picking and preserving eggs which turns them as black as jet;

And the flavor of eggs so preserved is supposed to improve as the years go by;

But Americans prefer their eggs soft boiled, fried, or poached;

And, above all, they want them fresh—that is why so many go to CHILDS.

Strictly fresh eggs with delicious cream—no quality dish at CHILDS.

## OFFERS DRINK OF WHISKY FOR RETURN OF LOST HEIFER

Owner the Next Day Looks Over  
Dropt Animals From Far and Near  
Brought by Thirsty Farmers.  
GALVA, Ill., Feb. 2.—The follow-  
ing want ad appeared in a local  
newspaper last week:  
"STRAYED—Holstein heifer, about 10  
months old. Any information leading  
to her recovery will be rewarded by a  
good drink of whisky. A. P. Doen,  
Superior."

## DON'T LET THAT COLD GET THE BETTER OF YOU

If that persistent cough or cold is  
fastened on you at this season of the  
year, it may lead to serious results.  
Your doctor would tell you that the

soothing, healing elements in Father  
John's Medicine are exactly what he  
would prescribe for such a condition.  
The value of Father John's Medi-  
cine has been proven by more than  
sixty-five years of success. It soothes  
and heals the breathing passages and,  
because of the nourishing food ele-  
ments it contains, helps to rebuild  
wasted tissue and gives new strength  
with which to rebuild health. Get  
rid of that cold or cough now, be-  
fore it is too late.

## WOMEN CAN DYE EVERYTHING WITH "DIAMOND DYES"

Beware of "all purpose" dyes of-  
fered by some stores. Every woman  
knows why she must buy either the  
"Diamond Dye" for wool and silk,  
or the "Diamond Dye" for cotton,  
linen, and mixed goods. Wool and  
silk come from animals, while cotton  
comes from a plant; therefore no one  
dye will perfectly dye both materials.  
Buy "Diamond Dyes" only, then  
your garments or draperies will not  
streak, fade, or have that dyed look.  
Each package contains easy direc-  
tions. Just tell druggist what ma-  
terial you intend to dye and what  
color you want.

## SIMPLE WAY TO GET RID OF BLACKHEADS

There is one simple, safe and sure way  
that never fails to get rid of blackheads,  
and that is to dissolve them.  
To do this get two ounces of calomine  
powder from any drug store—sprinkle a  
little on a hot, wet sponge—rub over the  
blackheads, brush off the powder, wash  
the face with clear water. The black-  
heads will be dissolved and disappear,  
leaving the skin smooth and clear.  
There are many ways to get rid of black-  
heads, but none so simple and sure as  
this. Calomine is a mild, non-toxic  
preparation of mercury and iodine, and  
it dissolves the blackheads as they wash  
right out, leaving the pores free and  
clear and the skin in its natural condition.  
Acne, pimples, and other skin troubles  
should certainly try this simple  
method.

## INVITATIONS ISSUED TO \$100-A-PLATE DINNER

Junior League Members to Serve  
at Benefit Affair for  
Starving Children.

Thirty members of the Junior  
League have volunteered to serve  
the "invisible guest dinner" to be  
given at the St. Louis Club next  
Tuesday evening to raise funds for  
the starving children of Europe.  
This will eliminate the cost of pro-  
fessional waiters and as all other  
items of the dinner, except the 23  
cents per plate which the food will  
cost, are donated, almost the entire  
\$100 which each of the guests in-  
vited will have to pay for the privi-  
lege of attending, will go to the fund.

The food provided for the guests  
will consist of a stew containing  
meat, rice, some of a little sea-  
soning, with cocoa and bread with-  
out butter. The stew will be made  
by the recipe used in the food kit-  
chens in the war-torn countries of Eu-  
rope, and the entire meal will be  
exactly what each child abroad is  
getting from these kitchens every  
day.

Invitations to this dinner will be  
issued today. As \$10 will save one  
child from starvation, each guest  
will be saving 10 children from  
death by attending this dinner. Ed-  
ward H. Hildebrand, president of the  
Junior League, announced yesterday  
the names of men who will act as  
official hosts for the dinner and will,  
with Herbert Hoover, who is com-  
ing to St. Louis to be the guest  
of honor and principal speaker of  
the occasion, receive the guests.  
These men are: Dwight F. Davis,  
John G. Lonsdale, Brockbridge  
Jones, Festus J. Wade, Murray  
Carleton, James E. Smith, William  
H. Lee, Edward B. Fryer, Edwards  
Whitaker, J. L. Johnson, N. L. Mof-  
fitt, C. L. Holman, W. R. Compton,  
George A. Meyer, George W. Sim-  
mons, Charles P. Pettus, Erwin W.  
Stiz, Nathan Frank, Aaron Wald-  
heim, M. L. Wilkinson, L. Ray Car-  
ter, Warren Goddard, Benjamin  
Gratz.

The St. Louis committee an-  
nounced yesterday that \$500,000 is  
St. Louis' quota of the \$23,000,000  
being raised in America for the un-  
fortunate children abroad. Of this  
amount about \$47,000 is already in  
hand, having come in through ad-  
vance subscriptions and as proceeds  
from benefit affairs arranged by  
groups of interested persons. It is  
hoped the remainder of the \$500,-  
000 will be contributed during the  
week which is opened by the \$100-  
a-plate dinner.

## "The St. Louis Plan"

Dwight F. Davis, vice chairman  
of the Missouri Branch of the Cen-  
tral European Relief Council, today  
announced a plan for enlarging the  
scope of the "Invisible Guest" din-  
ner which he will take up tomorrow  
with the council. The plan which  
Davis suggests may be called "The  
St. Louis Plan," is to make a com-  
munity affair of the dinner, every  
home in the city to have at least  
one "invisible guest," to be visual-  
ized by an empty chair at the prin-  
cipal meal of the day. At hotels,  
Davis suggests, one table might be  
reserved for "invisible guests." "Par-  
ents could tell their children that  
night of the suffering of little  
children in Europe," Davis said.

"Then, when Archbishop Glennon  
blesses the invocation at the City  
Club dinner, the lights all over the  
city might be flashed. Ten cents will  
save a child in Central Europe for a  
day, \$1 for a month, and \$10 un-  
til the next harvest. No home is  
too poor to provide something."  
Families, Davis suggests, could  
set aside at their own dinners what-  
ever amount they decide they can  
give. These contributions could be  
mailed Tuesday night to A. D. Fryer  
of the State National Bank, treasurer  
of the fund, or set aside until the  
popular collection is made. "The  
\$100 dinner is a splendid plan,"  
Davis said, "but it will reach com-  
paratively few St. Louisans. This is  
not an appeal or a drive, it is an  
opportunity. The plan would demon-  
strate the new St. Louis spirit, the  
'great family' of St. Louis."

## \$175 STICKPIN STOLEN IN HOLDUP RECOVERED BY POLICE

Diamond in Possession of Bank  
Teller Whose Brother Is Under  
Indictment for Five Robberies.  
A diamond stickpin valued at \$175,  
stolen by two highwaymen from  
Stanley Goldman of 5614 Waterman  
avenue, the night of Jan. 4 last,  
was recovered by the police yester-  
day from Alfred C. Waldermeyer of  
3216 Hawthorne boulevard, a teller  
at the Southern Commercial and  
Savings Bank, 7291 South Broadway.  
Waldermeyer, a brother of  
Henry Waldermeyer Jr. of 311 Geyer  
avenue, who is under indictment  
in connection with the Goldman  
robbery and five other robberies  
committed in the last two months,  
Charles F. Beckmann, also of 311  
Geyer avenue, is jointly charged with  
these crimes and his brother, Henry,  
is under indictment in connection  
with two robberies.

Police officers of the Souldard Street  
District learned that Alfred Walder-  
meyer had a pin answering the de-  
scription of the one stolen from  
Goldman. He readily surrendered it,  
saying he did not know it was  
stolen. He said his brother, Henry,  
gave it to him as a present and in  
return for favors. Capt. Kirk of the  
Souldard Street Station said Alfred  
told him Henry had an account at  
the Southern Commercial and Sav-  
ings Bank and that several times he  
had overdrawn the account. Alfred  
said that on these occasions he had  
advanced money to enable his  
brother to make the necessary de-  
posits to restore his account.

## DECREASE OF 530,000 IN MISSOURI LIVESTOCK IN 1920

Horses Lower in Price Than Any  
Time Since 1905, Hogs Near  
the Level of 1917.

Special to the Post-Dispatch.  
JEFFERSON CITY, Mo., Feb. 2.—  
Livestock on Missouri farms have  
decreased 530,000 in number and  
\$109,048,000 in value during the  
year which ended Jan. 1, 1921, ac-  
cording to figures compiled by E.  
A. Logan of the United States Bu-  
reau of Crop Estimates and Jewell  
Mayes of the Missouri Board of  
Agriculture. Their figures show  
2,333,000 animals valued at \$269,-  
742,000 now on Missouri farms.  
Figures now prevailing on horses  
are lower than at any time since  
1905, those on milk cows than at  
any time since 1918, those on mules  
than since 1906 and those on hogs

are near the level of 1917.  
The number of animals and their  
values, and average prices per head,  
are given as follows:

Horses, 1,050,000; valued at \$74,-  
550,000; average price, colts, \$33;  
yearlings, \$48; 2-year-olds and over,  
\$78; mules, 367,000; value, \$28,865,-  
000; average price, colts, \$49; year-  
lings, \$70; 2-year-olds and over,  
\$115; milk cows, 873,000; value,  
\$50,297,000; average price, \$57.50;  
other cattle, 1,659,000; value, \$57,-  
275,000; average price, calves, \$21;  
yearlings, \$31; 2-year-olds and over,  
\$34.50; sheep, 1,288,000; value, \$8,-  
228,000; average price, lambs, \$5.50;  
ewes, \$6; wethers, \$5.70; rams,  
\$10.10; hogs, 4,047,000; value, \$41,-  
517,000; average price, \$11.

Campaign to Make Switzerland Dry.  
Correspondence of the Post-Dispatch.  
GENEVA, Jan. 11.—A campaign  
to make Switzerland dry has been  
undertaken by the Swiss Anti-Alco-  
holic League. Its first step, it is an-  
nounced, will be to demand a federal  
referendum authorizing the Swiss

**HYDE CONSOLIDATION BILL  
TO BE INTRODUCED TODAY**

Measure Provides for Commissioner and Board of 16 to Do Work of 12 State Departments.

JEFFERSON CITY, Feb. 2.—The administration consolidation bill for creation of a commissioner and board of 16 to do the work of 12 departments and work of 12 boards and departments of the State Government will be presented in the House during the afternoon, the final draft having been made at a conference last night between Gov. Hyde, State Senator Gray and Representative Bestor of Pemiscot County, who will introduce the bill.

Members of the board would be appointed, one from each congressional district, and must be engaged in some agricultural occupation, and not more than a majority may be members of one political party.

The board and departments which would be united under this act are as follows: Boards of Agriculture and Horticulture; Fruit and Poultry Experiment Stations; Bureau of Dairying; State Fair, Bureau of Marketing, State Poultry Board, Land Reclamation Department; Immigration Department; Grain Inspection Department; Veterinary Department. Salaries of offices created would be as follows: Commissioner, \$5000; assistant commissioner, manager of State Fair, chief veterinarian, chief grain inspector, and chief of the bureau of markets, \$3000; technical inspectors, \$2500; inspectors, \$2000. The right of the College of Agriculture to a separate appropriation is recognized by the act.

**COOLIDGE'S OVERCOAT STOLEN**

By the Associated Press.  
ATLANTA, Ga., Feb. 2.—Atlanta's Police Department admitted today that Calvin Coolidge's overcoat had been stolen while the Vice President-elect was "visiting" here last week, and that the city's best sleuths could not find it. The public was asked to help.

The coat was taken while the Vice President-elect was inspecting the Y. M. C. A. Building, and because of civic pride the detectives wanted to return it without the world knowing the theft had been committed here.

**OVERSKIRTS AND SASHES  
TO MARK DRESSES AT SHOW**

Garment Workers and Milliners to Give Display in Chicago Feb. 9 to 19.

By the Associated Press.  
CHICAGO, Ill., Feb. 2.—Overskirts ruffled and scalloped, caught up at one side, hanging straight to within a few inches of the hem of the skirt, but more often following the lines of an old-fashioned apron, and sashes with butterfly bows, sashes with long fringed or tasseled ends, narrow sashes and broad, soft sashes of one or more contrasting colors, make the dominant note of the gowns to be shown at the spring and summer fashion show to be held here Feb. 9 to 19 by the Chicago Garment Manufacturers' Association, the Wholesale Milliners' Association of Chicago and the Chicago Furriers' Association.

The overskirt is especially in evidence in the little, all-day frocks which will be shown in great numbers. They come in taffeta, crepe de chine and Canton crepe, and the prevailing colors are brown, gray, black and navy blue. Skirts are short, some as much as 14 inches from the ground, sleeves stop at the elbow, and necks either are round or V shape, with an occasional lace collar.

**NEGRO HANGED IN LOUISIANA**

Man Who Shot Rice Planter Taken From Jail.

By the Associated Press.  
PLAQUEMINE, La., Feb. 2.—George Werner, negro, who shot and dangerously wounded Numa Tirecut, a rice planter, Monday, was taken from the parish jail at Port Allen last night by a group of unidentified white men and hanged to a sign post near the scene of the shooting.

Bill Would Order Payment of Salaries.

## MAN O' WAR AT NEW HOME IN KENTUCKY

American Turf Champion Retired to Stud at Hinata Farm Near Lexington.

By the Associated Press.  
LEXINGTON, Ky., Feb. 2.—Every luxury lavished on royalty is to be the portion of Man o' War, world champion thoroughbred, at Hinata Farm, near here, where he has just been retired to the stud.  
A private groom, private feed tubs, a private pasture, where he is allowed to run loose, these are some of the things that are being provided by his owner, Samuel D. Riddle of Philadelphia and Miss Elizabeth Daingerfield, noted woman breeder of thoroughbreds, under whose care he has been placed.  
Animals such as Man o' War are not allowed to do the many things that their plebeian brothers and sisters do that might expose them to danger. When the famous racer left the farm at Berlin, Md., where he was stabled after his return from his triumph over Sir Barton at Windsor, he was placed in a padded automobile van and hauled to the express car. On his arrival in Lexington he was unloaded into another van and taken to the Kentucky Jockey Club race track for exhibition to admiring thousands of Kentuckians.  
When he was taken from the track to Hinata Farm, a distance of six miles, he was again placed in a van and hauled over the smooth highway to the farm. There he was unloaded and placed in a stall specially prepared for him, with the companion of all his travels, Major Treat, the old steeplechase racer, on one side and Golden Broom, Mrs. Walter M. Jefford's 4-year-old stallion, on the other. For Man o' War loves equine company and he is to be kept satisfied by having his chum with him as well as another high-bred animal. Although Miss Daingerfield, whose

reputation as a breeder of race horses is second to none, has said that "a horse is a horse and Man o' War will just have a stable," she told the representative of the Associated Press that she had remodeled a barn on the farm for him. The box stalls prepared for Man o' War and Golden Broom are large and roomy, giving them plenty of room in which to turn and lie down at will.  
Feed tubs for Man o' War have been specially built by a Lexington tinsmith, special precautions being taken to see that the famous racer cannot injure himself. The stalls in the barn are much like those in the barn of any thoroughbred breeding farm, but through and about the barns at all hours of the night a watchman makes his way to see that no harm befalls any of the race.  
In a house nearby will live Frank Loftus, the man who always has cared for Man o' War since his baby days on August Belmont's "Nursery Stud" six miles from Lexington on the Georgetown pike, and where his dam, Mahubah, and his sire, Fair Play, still are stabled. Loftus will stay with the famous horse, caring for him by day and on call at any time that his services may be needed.  
"Man o' War is a well-behaved animal and no extra precautions have been taken in his stall to prevent his injuring himself," said Miss Daingerfield. "We have made no very unusual preparations for him. I have had a stable remodeled with three stalls, one for Man o' War, one for Golden Broom, Mrs. Jefford's stallion, and a smaller one for Major Treat. Man o' War's companion I have prepared a small house nearby for Frank Loftus, his groom, to live in. The regular night watchman of the farm will be on duty during the hours when the grooms and caretakers are not present. The books for Man o' War and Golden Broom have not been prepared, and I do not know to what mares he will be bred, but the plan is to breed him to about 15 this season."

of Danville, Ill., as her nephew, Earl Kesse of Danville. Kesse was identified by a growth on one ankle. His identity had remained a mystery since last summer. Wanderer, under a 25-year sentence for the murder of his wife, soon will go on trial for the murder of the stranger.

Guardsmen at State Capitol.  
Deputy Sheriff George Lane, former St. Charles policeman and special officer for the Wabash Railway, was appointed guardsmen at the State Capitol in Jefferson City by Governor Hyde yesterday. Lane's appointment is for four years. His salary is \$1250 a year.

## HAVE DARK HAIR AND LOOK YOUNG

Nobody Can Tell When You Darken Gray, Faded Hair With Sage Tea.

Grandmother kept her hair beautifully darkened, glossy and attractive with a brew of Sage Tea and Sulphur. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this old-time recipe, improved by the addition of other ingredients, all ready to use, at very little cost. This simple mixture can be depended upon to restore natural color and beauty to the hair.  
A well-known downtown druggist says everybody uses Wyeth's Sage and Sulphur Compound now because it darkens so naturally and evenly that nobody can tell it has been applied. It's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after its application or two, it is restored to its natural color and looks glossy, soft and beautiful.

## COLDS RELIEVED BY TURPO

The Turpentine Ointment That Gives Immediate Relief in Cold Troubles and Congestion. Mothers Use it to Prevent Development of Children's Colds.

For several winters a large number of people, especially mothers of small children, have prevented the serious effects from neglected colds by using Turpo—the new Turpentine Ointment which, applied externally, drives a cold away overnight, relieves congestion of all kinds, and has valuable antiseptic properties.  
There is nothing mysterious or secret about Turpo—it is a scientific combination of distilled Turpentine, Camphor and Menthol, in a salve or ointment which, being readily absorbed through the skin, carries the recognized and beneficial effects of these medicines to the root of the trouble. Turpo, applied up the nostrils at the first sign of a cold, relieves congestion and headache, clears the air passages, checking the cold at the very root, and prevents its developing into more serious trouble.  
Pneumonia and influenza may develop from a neglected cold—especially in children, and careful mothers are using Turpo as a standard household application, to be used at the first of "sniffles" in the child. For colds, Turpo rubbed on the throat and chest gets under the skin, clearing the congestion, without blistering the skin or staining the clothing.  
Turpo is also of value to give relief in catarrh, hacking cough, sore throat, and as an antiseptic application to cuts, wounds and burns. Ask your doctor or druggist about Turpo—they confirm that it is a good, honest remedy.  
Sold in white opal jars with orange and black label, 30c and 50c. Your money will be cheerfully refunded if you are not entirely satisfied.

## CARE IN SELECTING NEW SCHOOL BOARD MEMBERS ADVISED

Director of School of Educa-  
tion of Chicago U. Speaks  
on Situation in St. Louis  
Public Schools.

PRaises SYSTEM AS  
BEST IN COUNTRY

Dr. Withers Tells of Condi-  
tions Which Led to His  
Resignation as Superin-  
tendent.

Dr. Charles H. Judd, director of  
the School of Education of Chicago  
University, and Dr. John Withers,  
retiring Superintendent of Instruc-  
tion of the St. Louis public schools,  
at a dinner given at the City Club  
last night by the Civic League, char-  
acterized the St. Louis school system  
as one of the most efficient educa-  
tional institutions in the United  
States, and warned the people of St.  
Louis to exercise the greatest care in  
choosing members of the Board of  
Education.

Dr. Judd occupies a position in  
Chicago similar to the one that Dr.  
Withers will fill in New York when  
he becomes dean of the school of  
Pedagogy of New York University at  
the expiration of his term here this  
month. He had been invited to speak  
on "The Present Crisis in the St.  
Louis Public Schools," and he pre-  
sented his remarks by saying that  
someone had called his attention to  
the fact that the word "mess" should  
have been substituted for "crisis."

Dr. Withers said that he desired  
to "pull the curtain" on the "mess" of  
the anti-Withers phase and let  
St. Louis see the situation in the  
public school system in its naked-  
ness. He said that he was not  
leaving St. Louis in a huff, but was  
following the example of the Irish-  
man who left his country, "for the  
good of the country."

Importance of School Board.  
"I want you to know that I am  
going away with the earnest hope  
that the present high standard of the  
St. Louis public schools will be  
maintained," said Dr. Withers. "It  
is within the power of the people here  
to see that it is continued. The  
greatness of the system will never  
transcend the character of the men  
who make up the School Board, and  
the character of those men will depend  
upon the voters. There are good men  
on the present School Board, and  
there are some who do not measure  
up to the qualifications desired in  
men occupying such positions."

"When a group of men in the  
Board of Education find that they  
cannot make the Superintendent  
do what they think they must get  
rid of him. To accomplish this they  
resort to various means. They harass  
him and try to make his life  
miserable with petty annoyances,  
and, failing to get rid of him in  
that way, they try to discredit him  
with the people. They create disaf-  
fection in the rank and file of the  
teaching corps and then try to make  
it appear that the Superintendent is  
not maintaining discipline. We have  
given you an illustration of one of  
the methods this small group of men  
adopt in an effort to make the  
teachers believe that the merit sys-  
tem is ignored in making promo-  
tions."

"After the Superintendent has  
gone into the records of the various  
teachers and has made up his re-  
commendations for promotions he  
sends a copy of the list to each  
member of the Board of Education  
for his perusal before the meeting of  
the board at which the list is to be  
acted upon. Some of the members,  
taking advantage of the advance in-  
formation, go to teachers who have  
been recommended for promotions  
and tell them that they will see to it  
that those teachers are promoted at  
the next meeting."

Refers Only to Small Group.  
"Consequently those teachers get  
the impression that they owe their  
promotions to political influence.  
They tell other teachers and as the  
result of the circulation of such in-  
formation there is a stream of teach-  
ers calling upon certain members of  
the board seeking their friendship.  
Of course, I am referring only to the  
small group of men on the board  
who try to use the school system to  
gain their own selfish ends. We have  
men of high type on the board whose  
sole interest in the work is the up-  
lift of the schools, but that small  
group can make things very un-  
pleasant for the Superintendent who  
will not do their bidding."

Dr. Judd said that the charter  
provisions here which have been un-  
changed since 1897, giving the Su-  
perintendent of Instruction full ad-  
ministrative power in his depart-  
ment of the schools, is the best in

## Peru and Chile Welcome Officers of U. S. Fleets

Admirals Rodman and Wilson of Pacific and At-  
lantic Honored by Banquet and Visits  
From South American Executives.

SANTIAGO, Chile, Feb. 2.—Ad-  
miral Hugh Rodman and the high-  
er officers of the United States Pa-  
cific fleet, which is at anchor at  
Valparaiso, were guests of honor at  
a banquet given in this city last  
night by President Alessandri of  
Chile. The function marked the  
close of a busy day of reception  
and calls of ceremony by the Amer-  
ican officers. During the dinner  
toasts to President Wilson and Pres-  
ident Alessandri were proposed,  
and there was exchange of felicitat-  
ions between Government officials  
and the visitors.

Admiral Rodman, with his staff,  
arrived here yesterday noon.  
Newspapers of this city are de-  
voting much space to the visit of the  
fleet, and publish news from abroad  
in English for the convenience of the  
officers and sailors visiting the  
Chilean capital. After extending a  
cordial welcome to Admiral Rod-  
man, El Mercurio asserted: "The  
squadron is a symbol of the power of  
a democracy which in the last war  
employed the strength of its youth  
only to defend human ideals, re-  
establish the equilibrium of justice  
and give assurance that liberty might  
prevail. Strength so employed is a  
guarantee for the weak and a promise  
for all humanity. Chileans know the  
traditions of Washington and Lin-  
coln are alive."

Discussing the visit of the fleet,  
the Diario Ilustrado says the call of  
the war vessels at a Chilean port is  
of higher value than a ratification of  
the sincere friendship linking Chile  
and the United States, and is a mark  
of the tact understanding and the  
mutual respect which subsists be-  
tween the republics.

After reviewing the parade from  
the Government House, President  
Alessandri turned to Admiral Rod-  
man and said:  
"Although it is not within our  
diplomatic procedure for the Pres-  
ident of the republic to make a  
speech, after seeing the flag of my  
country saluted through the playing  
of the national anthem by a band  
from the United States fleet, I can-

not resist the desire to express the  
hope that the constellation in the  
North American flag may continue  
spreading its powerful rays of light  
for the material and moral progress  
of the world, and that under the  
light of those rays the new humanity  
will be fused in universal harmony  
and fraternity."

"When I return," he added, "it  
will be my pleasure to report to my  
Government your sentiments of  
friendship and your splendid hospi-  
tality."

By the Associated Press.  
LIMA, Peru, Feb. 2.—President  
Leguia of Peru, accompanied by the  
Minister of Marine, called upon Ad-  
miral Henry B. Wilson, commander  
of the United States Atlantic fleet,  
here today. This was a return of  
the call paid the President by Ad-  
miral Wilson yesterday. Shortly  
after noon the Minister of Marine  
was host to Admiral Wilson and his  
staff.

During the afternoon the program  
of entertainment included a bull  
fight and a reception at the Natio-  
nal Club. In the evening Admiral  
Wilson was to be guest of honor at  
a banquet given by Lieutenant-Com-  
mander Paul Fitzsimmons, member  
of the United States Naval Mission  
to Peru, and his wife, who formerly  
was Elsie French Vanderbilt. Later  
the higher officers of the fleet  
planned to attend a ball given by  
the Ministry of Foreign Affairs at  
the Union Club.

All Lima newspapers publish ro-  
tary portraits of Admiral Wilson  
and other officers of the Atlantic  
fleet, and express the pleasure of the  
Peruvian Government and people in  
entertaining the Americans. "In pay-  
ment respect to the North Americans  
in our country," says El Comercio,  
"the Peruvian people and Govern-  
ment know the United States repre-  
sents justice and right in the world.  
We admire the great people of the  
United States, and desire their  
friendship."

President Wilson was exempted  
from the tax under a St. Louis  
Measure as Introduced in Missouri  
Legislature Provided for Four  
Additional Justices.

JEFFERSON CITY, Feb. 2.—The  
House Judiciary Committee last  
night voted to report favorably the  
Manning bill increasing the number  
of Circuit Judges in St. Louis. The  
bill as introduced provided for four  
additional Judges, but the commit-  
tee will recommend only two. This  
would give St. Louis 16 Circuit  
Judges, each receiving \$5000 a year  
of which the State pays \$2000 and  
the city \$3000.

James H. Parker, Assistant Cir-  
cuit Attorney, presented the claims  
of the Judges before the committee.  
The Senate Committee has not acted  
on the bill.

The committee also decided to re-  
port favorably the bill to allow the  
Circuit Attorney two additional sten-  
ographers and approved the Hege  
bill to increase the salary of the Cir-  
cuit Clerk of St. Louis county from  
\$1200 a year to \$4200. This will be  
done by allowing the clerk that sum  
the clerk of the St. Louis County, com-  
posed of the two Circuit Judges.

Chubb, Mrs. Withers, Mrs. Harvey

Benjamin Stromberg of the Board of  
Education, Mrs. Wolfner, Mrs. Crun-  
den and Mrs. Grossman.

## GREEK KING WON'T NEGOTIATE WITH TURK NATIONALISTS

Constantine Willing to Enter  
Discussion Only Upon  
Recognition of Right to  
Hold Smyrna and Thrace.

WOULD MEET ONLY  
'RESPONSIBLE' ENVOYS

Mustapha Kemal Unworthy  
to Be Dealt With, He As-  
serts—Will Make No Over-  
tures to Venizelos.

By the Associated Press.  
ATHENS, Feb. 2.—Direct nego-  
tiations for the settlement of Near  
Eastern problems between the  
Greek and Turkish Nationalists are  
impossible, said King Constantine  
yesterday. He indicated he was not  
averse to conversations between the  
Greek representatives and delegates  
chosen by the Sultan's Government.  
If such procedure was dictated by  
the interests of Greece.

He made it evident his Govern-  
ment would refuse to recognize Mus-  
tapha Kemal Pasha, head of the  
Turkish Nationalists, or his dele-  
gates.

Constantine declared he would  
make no overtures to former Pres-  
ident Venizelos, who is at present in  
France, stating Mr. Venizelos must  
take the initiative.

"While at Paris, Foreign Minister  
Sfiza of Italy, suggested direct ne-  
gotiations between Greece and Tur-  
key for the settlement of their dif-  
ferences," said the King, "but such  
procedure would be out of the ques-  
tion at the present time. I do not  
recognize Mustapha Kemal as a per-  
son worthy to be dealt with. Why  
does Europe make all this fuss over  
him? Mustapha Kemal is not a  
big bluff, a big bubble, and he  
could blow him off the map as we  
would blow a fly off the table. If  
it seems wise after the London  
conference for Greece to enter into  
negotiations with the responsible  
Turkish Government in Constantinople,  
we will not hesitate to take  
part in them."

By the Associated Press.  
WASHINGTON, Feb. 2.—Warren  
G. Harding, as president of the United  
States, will receive something like  
\$15,000 less compensation from the  
Government annually than Woodrow  
Wilson has received. The Treasury  
will pay Mr. Harding the same  
amount that it pays Mr. Wilson—  
\$75,000 annually—but internal re-  
venue bureau officials say that Mr.  
Harding must return nearly one-  
fourth of this in income tax.

President Wilson was exempted  
from the tax under a St. Louis  
Measure as Introduced in Missouri  
Legislature Provided for Four  
Additional Justices.

## SAYS EXCEPTIONS UNDER ZONE LAW ENDANGER ACT

Engineer for Plan Commis-  
sion Declares Body's Prac-  
tices "Make Monkeys" of  
Its Members.

ASSERTS ALDERMEN  
AID PETITIONERS

Bartholomew's Appeal Fails  
of Effect on Changing of  
a Section to "Unrestricted"  
Area, However.

A declaration that the City Plan  
Commission is pursuing a policy  
tending to break down the zoning or-  
dinance and "make monkeys of the  
commission" was made by Harland  
Bartholomew, engineer for the com-  
mission, at a two-hour meeting of  
that body yesterday afternoon, in the  
Municipal Courts Building.

Bartholomew's plea that the com-  
mission change its policy with re-  
spect to particular cases for con-  
sideration was unsuccessful. He  
sought to have the commission dis-  
regard petitions for changes in zone  
restrictions and decide all such ap-  
plications upon their merits and the  
judgment of the commissioners. It  
has been the policy of the commis-  
sion to recommend changes in the  
zone classification of property upon  
application of more than 50 per cent  
of the property owners in the area  
affected.

Says Zone Law Is in Danger.  
In the course of a spirited argu-  
ment, Bartholomew declared:  
"If you continue this policy of  
making changes to suit the con-  
venience of individuals, merely upon  
the basis of petitions, which you know  
anybody can get for any purpose,  
you might as well repeal the zoning  
ordinance and let all property be  
unrestricted."

The particular case which brought  
up the debate was the application of  
the Condit-Bray Glass Co. to have  
the area bounded by Second street,  
Broadway, Montgomery and North  
Market streets changed from Indus-  
trial to unrestricted classification.  
This area, it was known, was the  
petition of 54 per cent of the prop-  
erty owners and had been acted upon  
by the commission's Zone Commit-  
tee, which presented a report recom-  
mending the introduction of an  
ordinance to make the change.

Arguments Against Petition.  
Upon motion and second that the  
commission approve the recommen-  
dation of the Zone Committee, Bar-  
tholomew took the floor to argue  
against the introduction of the or-  
dinance. He stated that since the zoning  
ordinance became effective about three  
years ago approximately 3 per cent  
of the city's area has been changed  
in classification upon the applica-  
tion of individuals.

"It has come to this," he said,  
"that when a man finds himself in-  
convenienced by the zoning ordi-  
nance he goes to the Aldermen for  
his ward, and the Aldermen gets a  
petition circulated and comes to this  
commission and gets the ordinance  
changed. In the interim, the zone  
ordinance has come to my office with  
requests for zone changes."

"The worst feature of this is that  
every change we make to accommo-  
date individuals becomes a prece-  
dent to which other applicants  
may point and say, 'You did it for  
this man, why not for me?'"

Says Practice Will Hurt City.  
"I maintain that in granting these  
requests merely upon petition of  
property owners the commission is  
not exercising its best judgment for  
the best interests of the city as a  
whole."

Bartholomew then illustrated on  
the zone map of the city how the  
zone system was originally designed  
to keep Broadway, as a main north  
and south artery, free from zone  
uses prohibited by unrestricted prop-  
erty. He pointed out that the grant-  
ing of this application would be an  
encroachment upon the restricted  
area that would inevitably lead to  
other such encroachments.

Louis P. Aloe, president of the  
Board of Aldermen, who is an ex-of-  
ficio member of the commission,  
asked Bartholomew "where he was  
getting with all this argument."

"I'll tell you where the commis-  
sion is getting," Bartholomew re-  
joined; "it is making monkeys of all  
of us by its action as it is pro-  
posed to take here."

Recommendation Approved.  
The question was called and the  
recommendation of the committee to  
approve the proposed change was ap-  
proved without an opposing vote.

## BRITISH NAVAL EXPERT SAYS BERLIN CAN'T POSSIBLY MEET DEMANDS FOR REPARATIONS

Asserts It Is Beyond Conception How Germany  
Can Pay—Believes Britain Would Wel-  
come Proposal for Disarmament.

By Leased Wire From the New York  
Bureau of the Post-Dispatch.  
NEW YORK, Feb. 2.—Arthur H.  
Hollen, English naval critic and ex-  
pert, who is in New York on busi-  
ness in connection with his position  
as director of the foreign department  
of the Birmingham Small Arms Co.  
of England, gave his opinions on the  
two subjects, reparations and dis-  
armament, to a reporter yesterday.  
With regard to the German inden-  
demy question, Hollen said:  
"I cannot see how Germany can  
pay. Since the end of the war there  
have been but two intelligible poli-  
cies toward reparation for Germany.  
The first was to crush Germany, to  
put her out of business and to keep  
her out. The German people are the  
hardest working, thriftest people  
in the world, and the best  
equipped in Europe. So the second  
policy was to let Germany work to  
let her get as much money as she  
could, and then to take it away  
as fast as she made it, doing it  
back according to needs."

"And one of the other of these poli-  
cies must be followed. The allies  
have maintained a blockade since  
the armistice. As human beings, the  
German nation has suffered more  
since the war than during it, and  
they have received no help from the  
allies."

Will Have to Pay With Exports.  
"Then, how is Germany going to  
meet a payment that is, I believe,  
about as large as the annual budget  
of the nation? And there's the 12  
per cent export tax. As our Prime  
Minister expressed it recently, no  
body wants German exports. Ex-  
ports are what they will have to pay  
with. It's a pretty puzzle."

"We're certainly asking them to  
pay more than they are able. I  
don't see how they can do it. There  
has never been such a situation.  
"After the 1870 war, when there  
was the only other big indemnity,  
the French were able to hand it  
over in cash within four or five years.  
The amount asked was commensurate  
with French resources. But it is  
beyond human conception how  
Germany can pay, or can be ex-  
pected to pay. I can't see by what

between Hamilton and Hadlamont  
avenues, from commercial to indus-  
trial classification. It was brought  
out that about a year ago the cloth-  
ing company established a factory in  
this area, and was later prosecuted  
for violating the zoning ordinance. Sub-  
sequently the commission agreed  
that this area would be changed if  
the company would present an ade-  
quate petition, which was later pre-  
sented. Yesterday's action was in  
the nature of a reconsideration, some  
of the members and Bartholomew  
contending that it was a mistake to  
let industrial territory encroach upon  
a main commercial street. It was de-  
termined, however, to stand by the  
original action and make the change.

Members of Commission.  
The members of the City Plan  
Commission are E. J. Russell, chair-  
man; A. S. Langsdorf, vice chair-  
man; Nelson Cluff, W. H. Fuchs,  
C. E. Golderman, John A. Ocherson,  
W. H. Wedemeyer, all appointed by  
the Board of Public Service, and the  
following ex-officio members: Pres-  
ident Aloe of the Board of Alder-  
men; Chairman Kinney of the Board  
of Public Service; Charles M. Tal-  
bert, Director of Streets and Sewers;  
F. W. James, Commissioner of Parks  
and Game; McKelvey, Director  
of Public Safety.

The commission is composed of Langsdorf,  
chairman; Wedemeyer, McKelvey  
and Aloe.

By the Associated Press.  
CONSTANTINOPLE, Feb. 2.—  
Mustapha Kemal Pasha has sent a  
wireless dispatch to the allied rep-  
resentative in Constantinople de-  
clining to attend the conference in  
London to discuss the Turkish and  
Greek situation.

"We refuse," says the message, "to  
attend the London conference and  
we contest the right of Tewfik  
Pasha's Cabinet to represent Turkey,  
as this Government is non-existent  
for Anatolia. We have advised  
Tewfik that he must recognize us as  
the supreme authority, so, if the al-  
lies are desirous to restore peace,  
they must extend the invitation to  
Angora, which represents the whole  
of the Turkish nation."

FATALITY CRUSHED BY CAR  
Conductor on Traction System Dies  
in Hospital.  
M. C. Roeman, 23 years old, a  
conductor for the Illinois Traction  
System, was crushed between two  
cars and fatally injured at 7:20  
o'clock last night at the car barn at  
Stanton, Ill., while he was coupling  
the cars in preparation for the run  
to St. Louis. He died an hour later at  
the hospital at Litchfield.

The visiting monarch afterward  
appeared upon the balcony of the  
palace, and was received by cheers  
from a throng. Announcement was  
made that King Albert had been ap-  
pointed a Colonel in the Spanish  
army, and that decorations had been  
conferred upon members of his  
suite. Last night the principal thor-  
oughfares of Madrid were brilliantly  
illuminated in honor of the Belgian  
King and Queen.

TOASTS EXCHANGED BY KINGS  
Belgian Ruler Entertained at Roy-  
al Palace in Spain.  
By the Associated Press.  
MADRID, Feb. 2.—King Alfonso  
of Spain and King Albert of Belgium  
exchanged cordial toasts at a ban-  
quet given in honor of the Belgian  
King and Queen at the royal palace  
here last night. King Albert made  
particular mention of the gratitude  
he felt for King Alfonso's interven-  
tion on behalf of victims of the war.  
Later, those present at the banquet  
attended a concert at the Royal The-  
ater.

## CITY COMMITTEE TO BACK NO ONE IN G. O. P. PRIMARY

Organization Chairman Says  
That Such Support Hurts  
Candidate if He Wins  
Nomination.

INDIVIDUALS ARE  
LEFT FREE TO ACT

Committee Also Takes Ac-  
tion to Free Members  
From Pressure of Job  
Seekers.

The Republican City Committee  
will not back any candidate for the  
mayoralty or other office in the pri-  
mary March 11. This was announced  
by Chairman Strodtman, following  
last night's meeting.

"The committee will not have any  
candidate in the primary," said  
Strodtman. "Individual commit-  
tees will back certain candidates; if  
they see fit to. But the committee,  
as a whole, will take the position  
that its job is not to select the ticket,  
but to elect it. At the committee's  
meetings I shall rule out of order  
any motion to endorse any candi-  
date."

"It is doubtful whether the back-  
ing of the committee is a help to a  
candidate. It causes him to be  
known as the machine candidate, and  
this may hurt him."  
"If the committee had had such a  
rule in force last summer, it would  
not have made the mistake of in-  
dorsing a candidate for Governor  
who was later defeated in the pri-  
mary."

No Individual Indorsements.  
The committee also decided that  
its members should not thereafter in-  
dividually make any application for  
an appointive position, either city,  
State or Federal. "The committee as  
a whole, it was decided, shall re-  
serve the right to indorse any appli-  
cant for an appointment, and no in-  
dorsement except that of the  
whole committee shall be given."

The purpose of this move is to  
free the individual committee mem-  
bers from constant pressure to indorse  
job seekers.

Louis P. Aloe, president of the  
Board of Aldermen, who has been  
favored by some members of the  
committee as a candidate for Mayor,  
announced yesterday afternoon that  
he would not run. He said that, as  
he had been elected president of the  
board for a term extending until  
1923, he did not feel that he should  
abandon that position now. A group  
of Aloe's friends, headed by John S.  
Leary, whom he informed of his de-  
cision at a luncheon, did not deter-  
mine on support of any other candi-  
date.

Aldermen File.  
Alderman Edward L. Kuls of the  
First Ward filed his candidacy for  
re-election yesterday, as did Alder-  
man Edward Schantz of the Twen-  
ty-seventh Ward. Eighteen Republi-  
cans filed for the Board of Alder-  
men up to today, and no Democrats.

Mrs. C. W. Swingle, member of  
the Women's Republican Committee  
from the Twenty-eighth Ward, has  
announced that she will support  
Burkham for Mayor.

The Republican City Committee  
yesterday decided to ask the co-op-  
eration of the women's organization in  
getting out a full supplementary reg-  
istration Feb. 17. Those who must  
register then, to vote in the primary  
and in the city election April 6, are  
those who have changed their place  
of residence since registering last fall,  
or who for any reason were not reg-  
istered then, but will be qualified as  
voters this spring.

NEW 20,000-BARREL OIL  
REFINERY FOR WOOD RIVER  
Wilcox Company to Construct Plant  
Connected by Pipe Line With  
Midcontinent Field.

An oil refinery of 20,000 barrels a  
day capacity connected by pipe  
line with the Midcontinent field  
of Oklahoma, will be erected at  
Wood River, Ill., by the Wilcox Oil  
and Gas Co., according to an an-  
nouncement made by H. F. Wilcox  
of Tulsa, Ok., president of the com-  
pany.

It was stated that work will be  
started on both the pipe line and the  
refinery as soon as arrangements can  
be made. The refinery is to be con-  
structed in units, thus insuring early  
operation.

The Wilcox company, which holds  
large acreage in the producing fields  
of Oklahoma, proposes to finance the  
new undertaking by offering stock to  
its present stockholders. Wood River  
already has two oil refineries, one  
owned by the Standard Oil Co. and  
one by the Roxana Petroleum Co.

# Judging by That Knockout, Bandsman Rice Must Have Played Second Fiddle to Bill Brennan

## Champion Leonard Accepts Terms for Bout Here With Welling at Catch Weight

Closing of Match Announced Today by Future City Athletic Club  
—Two Title-Holders to Show Here in February—  
Increase in Prices Expected.

By John E. Wray.

Benny Leonard (Leiner), the world's lightweight ring champion, has wired that he will appear at the Coliseum here Feb. 24 in a return eight-round, no-decision contest against Joe Welling of Chicago, according to an announcement made here today at noon by Leo Heyman, matchmaker for the Future City Athletic Club.

Heyman stated that he had received a telegram at noon today from Billy Gibson, manager for Leonard, accepting the financial terms offered by the club. One of the conditions of the match is that the men meet at catch weights. Recently the men fought at Madison Square Garden, New York, for the lightweight title, Leonard gaining a knockout verdict in the fourth round, round of their scheduled 15-round contest.

The scheduled bout here appears to be the most important one arranged by a St. Louis club in 15 years, as it gives Welling a chance to reverse the Madison Square Garden decision.

Matchmaker Heyman told the Post-Dispatch today that the affair appeared to be virtually closed, but that until the signed articles of agreement had reached him he could not be certain. He said he had telegraphic confirmation of the closing of arrangements from the managers of both fighters.

The appearance of Leonard in St. Louis will follow that of Joe Lynch, the lightweight title-holder, who will battle James White of Albany here Feb. 9. Lynch will be making his first ring appearance since he won his title from Pete Herman.

For both contests the management expects to raise its prices. The maximum for the ring-side seats to see Lynch, it was stated, would be \$5.50 with the war tax, and for Leonard \$9.50. The change in admission to the Leonard show will be \$2.50. The amounts guaranteed the two

## WILLARD-DEMPEY BOUT IS INDEFINITELY OFF

LOS ANGELES, Cal., Feb. 2.—The proposed bout between Jack Dempsey, heavyweight champion, and Jess Willard, former champion, scheduled for March 17, in New York, has been indefinitely postponed, Dempsey announced today.

The champion said he had received a telegram from New York from his manager Jack Kearns, announcing the indefinite postponement of the match. He said he had received no detailed reasons, but understood it was because of the ruling of the New York Boxing Commission limiting the price of admission to \$15.

Dempsey also said Tex Rickard would promote the match between the champion and George Carpentier on a percentage basis. He said he understood he would receive no less than 25 per cent of the receipts. "There will be no guarantees," he said.

champions were not divulged by the Future City management, but it was stated that in order to finish in the clear with a little profit the club would have to take in \$20,000, the largest sum ever paid for a fight in this city at about \$6000.

## Horemans Beats Cornhuskers Win Cutler Handily From Sooner Five

Belgian Cuesist Wins 800 to 375 in 24 Innings, a Grand Average of 33 1-3.

NEW YORK, Feb. 2.—Edouard Horemans, Belgian billiard champion, led Albert Cutler of New York, 800 to 375, last night at the end of the first day's play of a 2400-point match at 18.7 baillie billiards.

Horemans won the afternoon block, 400 to 121, and averaged 28.3-14 to Cutler's 14.9-13. The Belgian had high runs of 155 and 97, and Cutler 44 and 35.

The foreign champion ran out the evening block in 10 innings, 400 to 184. Cutler's average was 18.4-10, 158 runs; Horemans 87, 80; Cutler 58, 24.

**SOUTHWORTH-BARBARE SATISFIED WITH TRADE**  
PITTSBURGH, Pa., Feb. 2.—Bill Southworth and Walter Barbare, who figured in the trade which brought "Rabbit" Maranville to the Pirates, are satisfied with their new berth on the Boston national club. In a letter to Barney Dreyfuss, owner of the Pittsburgh team, Southworth said he had been satisfied while wearing a Pirates uniform, but that he was willing to go to the Braves. "I realize you badly needed a shortstop, and to get one players had to be given in exchange," said the popular outfielder. He thanked Mr. Dreyfuss for the "square deal" he had given here, and in closing said, "I hope your boys will be well up toward the top, with Boston leading."

In a letter to a friend, Barbare said that while he was sorry to leave Pittsburgh, "I feel I'm going to Boston and I feel I'm going to come through."

Fred Nicholson, one of the heaviest hitters in the national circuit, also went to Boston in the Maranville trade.

**ARIE ESTABLISHES INDOOR TRAP SHOOTING RECORD**  
NEW YORK, Feb. 2.—A new indoor trap shooting record for consecutive hits, 144, was established in the professional indoor tournament at Madison Square Garden yesterday by Mark Arie of Champlain, Ill., officials announced today.

Arie, who won the Olympic championship last year, is making his first appearance as a professional. His consecutive hits ended in the fifth round of the championship event when he missed an easy shot on the 145th bird.

J. H. Hawkins of New Haven, Conn., and W. H. Winchester of Wilmington, Del., qualified for the final round, which will be shot Saturday.

**BRENNAN KNOCKS OUT RICE IN SECOND ROUND**  
BUFFALO, N. Y., Feb. 2.—Bill Brennan knocked out Bandman Dick Rice of England in the second round here last night. Rice was knocked down twice in the opening round and a head right in the jaw finished him in the first minute of the second. The men are heavyweights.

**Ring Signs With Phils.**  
PHILADELPHIA, Feb. 2.—The signed contract of James Ring, former Cincinnati pitcher, has been received at headquarters of the Philadelphia National League club. It was announced today. Ring and Neale were traded to Philadelphia for Eppa Rugg recently.

## Nebraska Team Retains Clean Record by Taking Fourth Straight Victory.

LINCOLN, Neb., Feb. 2.—Coach Schuessler's University of Nebraska five won its fourth straight Missouri Valley Conference game here last night, when it defeated the University of Oklahoma team, 22 to 22.

The Cornhuskers took the lead after the first few minutes of play and held it throughout the game. Several times it seemed as if the Sooners would take away the scoring advantage. During the first half Owen's club climbed to the short end of a 12 to 9 score, while in the second period they forced the locals to an 18-15 count.

Bekins of Nebraska scored 17 points from his center position and was the scoring star of the evening. The Oklahoma center, Waite, led his team with 14 points.

Following last night's game, the visitors went to Des Moines for games with Drake, tonight and Thursday night; while they will play Grinnell Friday and Saturday.

The probable lineup for tonight: Nebraska (23) Position, Oklahoma (23) Warren (2) L. F. ... Cox (2) ... Smith (2) ... R. F. ... Knocks (4) Dobash (6) ... Center ... Tyler (2) ... Smith (2) ... Left guard ... Waite (14) Youngmeyer (1) Newman (2) ... L. G. ... Whosant (6) Bailey (6) ... R. G. ... Bonebrake (6) Referee—C. G. ...

**M'WHORTER AND JEWTRAW WIN IN SKATE TOURNEY**  
SARANAC LAKE, N. Y., Feb. 2.—Roy McWhorter of Chicago and Charles Jewtraw of Lake Placid divided the honors in the first of the three days' international amateur skating championship meet here yesterday.

McWhorter won the mile event after a hard struggle and Jewtraw took the 220-yard event classic of the speed races after skating the fastest heat of the event. Jewtraw's speed won in the 220 and McWhorter's endurance brought him victory in the mile.

In the junior events Ernest Graves of Saranac Lake won the 440-yard race and Carl Parody of Lake Placid won the 220-yard event.

**JUDGE LANDIS OPENS HIS BASEBALL OFFICE**  
CHICAGO, Feb. 2.—Headquarters for Judge K. M. Landis as High Commissioner of baseball were opened in a suite of rooms in a Michigan avenue building today. He expects to be ready to transact baseball business next afternoon and to announce a selection of his secretary in two or three weeks.

Comment on the plans for the commission in dealing with the indicted White Sox players was refused by Judge Landis, but he did say that the country would be bombed for evidence, and that any sum necessary would be spent to get the facts.

**Ski Tournament Sunday.**  
CHICAGO, Feb. 2.—The international ski tournament of the Morge Ski Club, postponed two weeks ago because of mild weather, will be held next Sunday at Cary, Ill., the club announced today. Entries in the tournament have been received by the club from noted ski jumpers all over the world. Entries will be received in Chicago not later than next Friday, the club's secretary said.

### TRIOLET OF REGRET.

HER lips were so near—  
And I hadn't the nerve.  
'Twas the chance of a year.  
(Her lips were so near)  
She was angry, I fear.  
And her scorn I deserve.  
Her lips were so near  
And I hadn't the nerve.  
—Tiger.

HER lips were so near—  
And I hadn't the nerve;  
Painter's colic I fear.  
Her lips were so near.  
And so I steered clear  
Of their Cupid-like curve.  
Her lips were so near  
And I hadn't the nerve.

**AND OTHER THINGS.**  
THE youngling of the back-fence cat  
Moves no one to enthuse;  
Yet in this lilting song of hers  
She doth invoke the "mews."  
—Exchange.

**WHEN on the fence or woodshed roof**  
Her lilted song she sings.  
She gets a shiver of reproof,  
And sundry other things.

**FIRST DIVISION:**  
Phil Ball has thrown away his crutches and gone South to give his leg a workout to get it in shape for the pulling incidental to the spring round-up.

"Strangler" Lewis threw Gardini, the Italian heavyweight, without using the "headlock." This ought to encourage Bill Doak to try and win a game without the spitter.

The milk dealers use the milk bottle as an alibi for high prices while the candy merchants make the candy box serve as an alibi for short weight. It's a great life, as the fellow says, if you don't weaken.

**HOW COME?**  
The dairies claim they stand an annual loss of \$64,000 through loss of milk bottles. Wonder what the drivers do with them.

Guess when we buy a peck of peas they'll knock off a couple of ounces to cover the pods.

If the blue laws are ever put in force will it be a felony to give a pink tea?

**HELLO!**  
"Lineman Rescues Cat From Telephone Pole. Headline. Guess she climbed up there to put in a few cat calls.

## EPSILON ETAS OPPOSE LEACOCK QUINTET IN TITLE BASKET CLASH

The Epsilon Eta Leacock lives, at present tied for the leadership in the open division of the Municipal Basketball League are scheduled to meet at 9:30 o'clock tonight at the Armory in a game which will practically decide the city championship. The clash is expected to result in one of the best games of the season.

An admission fee of 25 cents will be charged to tonight's game for the purpose of raising funds to send the municipal champions to Kansas City for the National A. U. title tournament.

The probable lineup for tonight: Leacock. Position. Epsilon Eta. Ven Dach or Smith. Right forward. ... Russell Fourbourn. Left forward. ... Hoehn or Smith. ...

**Tigers Play Pickers Here.**  
This week's Missouri Valley Conference schedule brings the following schools together for games on Friday and Saturday nights: Missouri U. vs. Washington, at St. Louis; Kansas vs. Agiles vs. Kansas U. at Lawrence; Oklahoma U. vs. Grinnell, at Grinnell; Ia. Nebraska, Drake and Ames have open dates.

**Clayton Defeats Webster.**  
The Clayton High School team won a closely contested game from Webster High, 14 to 11, on the latter team's court. The victory came as a surprise, inasmuch as Webster has shown greatly improved form in its recent games. In the opener of the double-header, the Webster girls won from the Clayton girls, 21 to 15.

**Cubs Start West Feb. 24.**  
CHICAGO, Feb. 2.—The vanguard of the Chicago Nationals, consisting of pitchers and catchers, will start for the training camp on the Pacific Coast Feb. 24. They will be in charge of Manager Johnny Evers and will arrive at Pasadena Feb. 27. After climbing the mountains and hills on Catalina Island, these players will be joined at Pasadena by the remainder of the club, which leaves Chicago March 3 and arrives at the training camp March 8. Beginning their regular spring training on March 7, the Cubs will play about 25 games on the coast before starting their homeward journey April 3.

**Gibbons to Box Melchior.**  
TOLEDO, O., Feb. 2.—Tommy Gibbons of St. Paul and Tony Melchior of Chicago will meet in a 12-round boxing bout here on the night of Feb. 6. It was announced yesterday that Gibbons and Charley Weinert will meet in Madison Square Garden on Feb. 17.

**Clarence Mitchell Signs.**  
NEW YORK, Feb. 2.—The signed contract of Pitcher Clarence Mitchell was received at the Brooklyn National League club's headquarters today. It was the first 1921 contract to be received by the Dodgers.

## Scullins' Protest Carried to Head Of Football Body

Winton Barker of Local Soccer League Submits Facts to President Healy.

Winton Barker, president of the St. Louis Soccer League, announced today that he would write to Thomas Healy of Detroit, president of the United States Football Association, in regard to the treatment received by the Scullins in the game with the Bricklayers at Chicago Sunday. Barker also stated he would present the local angle to Douglas Stewart and James Booth, members of the Cup Committee.

It also developed that further evidence in the protest of the Scullins vs. Bricklayers had been sent East yesterday. This evidence was in the form of letters, and one was written to "Cahill" by Billy Klosternan, manager of the St. Leos, when that team was in its prime.

Klosternan viewed the game at Chicago, and when it was all over, made the following statement: "If anyone had come back to St. Louis and tried to tell me what happened, I would not have believed it. You really had to see to believe in this case."

Several other St. Louisans who were in the Windy City sent their versions of the affair East.

It is expected that Pete Harris, formerly star halfback in the St. Louis League, who is now a resident of Kenosha, Wis., and who came to Chicago for the tilt, will file his views with the U. S. F. A. Committee.

If evidence is needed to win the protest, the Scullins certainly will not lack it.

President Barker said that if the Scullins' protest was voted upon favorably by the committee, the locals were willing to replay the game with Chicago with the original referee—Paul McSweeney—handling the contest, or have it staged on some neutral field with a neutral referee.

Could Exit Without U. S. F. A. He also stated that if St. Louis should withdraw from the national competition he was confident that St. Louis would have no trouble arranging to have the game replayed.

In the matter of fouls called in the two games between the Scullins and the Bricklayers, Paul McSweeney in the original contest here, which went two hours to a 1-1 draw, called six fouls on the Scullins and four against the visitors. In Chicago, with McKenzie handling the clash, it was 18 against the Scullins and none against the Chicagoans.

In the Windy City, the Scullins forwards were ruled off-side seven times and the Bricklayers not once. In St. Louis two off-sides were called against the "Brickies" and none against the home boys. On one occasion at Chicago, Cliff Brady was ruled off-side by McKenzie when "Dick" Brannigan was taking a shot at goal.

## Minister Pleads For Boxing Bill

"Fighting Parson of 139th Tells Missouri Legislators Merits of Glove Contests.

JEFFERSON CITY, Feb. 1.—The Razovsky-Legion boxing bill, as amended, will be reported out favorably by the House Committee on Criminal Jurisprudence today, representatives of the American Legion have been informed by Chairman Elgel.

One of the amendments provides that the State Adjutant-General would be chairman of the Boxing Commission, of which the other two members would be appointed by the Governor. The bill would provide for 12-round matches, and would require all clubs to obtain licenses from the commission to hold matches. The charters to be revocable in the event gambling or other misconduct is permitted.

A public hearing on the bill with more than a score of women present was held in the House chamber last night, the Rev. E. A. Blackman of Chanute, Kan., who was chaplain of the 139th Infantry in the Thirty-fifth Division, known as the "Fighting Parson," making the principal speech for the measure.

Blackman urged that boxing be legalized and put on a high plane by having it supervised by persons of high standards.

"Boxing slipped to the low plane because ministers and other persons of high moral principles and standards held aloof and denied to it their influence for good," he said.

Text from Certificates. Representatives Hubbard of Lawrence County inquired if Blackman was a minister and after getting an affirmative reply, asked: "Where do you get the text for the sermon you are preaching tonight?"

"From Paul, ninth chapter of Corinthians," came the instant answer, with the quotation, "I am a boxer, hit hard and straight, not as one who beats the air, but I buffet my body." He said that he would be willing to be knocked out, if anybody present cared to administer the punch, and after realizing consciousness, continue his address. There were no takers.

## Important Basket Games Scheduled By Local Quints

Billkens Oppose Concordia in First of Local Collegiate Title Series Saturday.

Three basketball games, the results of which will be conducive to establishing the collegiate and scholastic championships of the city, have been scheduled for this week.

The first game of the triangular series, between Washington and St. Louis universities and Concordia Seminary, will bring the latter two teams together, Saturday night. Neither of these two quintets has met with defeat this season; but neither has met with any particularly stiff opposition.

The second game of the collegiate title series will bring St. Louis U. and Washington U. teams together at the Armory, Feb. 23, while the Pike-way live will oppose Concordia, Feb. 26.

The three teams are more evenly matched this year than at any time in recent years. Heretofore the West End collegians were head and shoulders above the denominational schools; but such is not the case this year. The Billkens have a scoring punch in Weber and Vouchen, while Paddy Fitzgerald has developed a good five at Concordia.

**Kenrick Plays "Bill" Juniors.**  
Two undefeated local scholastic quintets met at College Hall, Grand and Laclede avenues, this afternoon, for survival in the "prep" race. These are Kenrick and St. Louis University high school. Kenrick holds the championship from last year and seems to have a running start to repeat.

The junior Billkens, however, look just about as good on a comparative score basis. They have defeated Solder, co-holder of the lead in the High School League race, as well as a number of the other local high school teams.

The third decisive contest of the week will bring together Solder and Cleveland in the feature of Friday night's basketball games at the Armory. These two fives are at present tied for first position, and the week's result will establish the undisputed leadership. Inasmuch as this will be their last meeting of the season, it will in all probability decide the championship.

Solder held first place during the first round of play, but Cleveland edged to the top last week; when McKinley defeated the West Enders. McKinley, the team which sprang the big surprise, will meet Yeatman in the other game of the program.

**CROWE INVESTIGATING REPORTS SOX PLAYERS WOULD NEVER BE TRIED**

CHICAGO, Feb. 2.—Robert E. Crowe, State's Attorney, yesterday personally conducted a grand jury investigation into reports that the indicted voters some time ago against eight Chicago American League baseball players and others for alleged complicity in the throwing of 1919 world series games were to be pigeonholed and the men never brought to trial.

Among those called before the jury were: MacLay Hoyme, former State Attorney; George T. Kenney, his secretary; Thomas D. Nash, attorney for four of the indicted players; Hartley Replogle and Henry Berger, former Assistant State's Attorneys, who conducted the baseball investigation, and L. G. Edwardson, Chicago correspondent for a New York paper which was said to have printed the report that the case was to be dropped.

While no official announcement of the proceedings before the jury was made, it was said that Nash denied that he ever had said that the case would be dropped or that he had been offered copies of the original testimony for a certain price. An investigation brought a statement from Mr. Hoyme that records of the case were in the State's Attorney's safe.

Crowe reiterated a previous statement that the case would be brought to trial just as quickly as it could be prepared.

All the White Sox players have furnished bond except "Chick" Gandil, Claude Williams and Joe Jackson. These three men, Crowe said, would be treated as "fugitives from justice" if they did not appear at the trial, and an attempt would be made to force them to surrender.

**Notre Dame Five Loses.**  
LANSING, Mich., Feb. 2.—The Michigan Aggies defeated Notre Dame at basketball last night, 27 to 25.

## WRAY'S COLUMN

Midwinter Madness.

HOW they get that way we do not know, but it is not going too far to suggest that some of the Eastern billiard experts must have become a bit barmy in the upper story, relative to their views on Horemans and Hoppe.

First it was "Gray Tom" Gallagher; then it was Al Cutler, now it's Maurice Daly—all rushing into print to express positive views that the Belgian cuesist will surely defeat Champion Hoppe, when they meet in a championship match.

They all base their views on practice and exhibition performance; and all three of the players must be several times too old to be guilty of basing views on practice contests.

We recall the case of George Sutton, the world's greatest practice player, who fairly burned up the cloth and had the onlookers' eyes hanging out—in practice; but in matches he stopped to a whisper. It may be significant that Sutton used the same specialty as the Belgian—the balk-line nurse, a style of play that is broken up by the slightest variations of the player's form or of table and ball conditions.

In addition to the fact that the Belgian has not been tested in a match, there is the unquestioned "dope" that his exhibition play has not ranked with Hoppe's in grand average.

Will some one please explain on what the gray heads of the East base their assumption that Hoppe is already a beaten man? In any other line of sporting endeavor, if Horemans were the most powerful world-beater he is declared, he would be asked to show something of it, by taking on secondary opponents such as "Shy" Cochran or Schaefer, or both. Until he proves himself in a match test, for money or fame, he should not be conceded more than an outside chance with the title-holder.

**Behind the Curtain.**  
ACCORDING to Joe Woodman, who is closely associated with the boxing powers of New York, the next move in the Dempsey-Carpenter fight location may be in the direction of New Jersey.

Woodman says that an effort is being made by the New York promoters to have the New Jersey fight limited to 15 rounds and to a decision, which would bring the Dempsey-Carpenter match within sight and easy reach of New York City. One of the Jersey side ball parks would then become available; or, if necessary, an arena suitable to the occasion could be erected. All New York would be within 45 minutes of the Jersey entrance, in that case.

It is conceded that the only place in the United States that can financially take care of the title fight, as it now stands, with a \$200,000 guarantee, is the metropolitan district. If New Jersey falls down, it is considered unlikely that the event will be held anywhere in this country, unless the financial conditions are altered.

**By Way of Contrast.**  
AGITATION to har the headlock used by "Strangler" Lewis will come to nothing because the wrestlers themselves want it retained. The same agitation, at various times, has arisen against all punishing holds, notably the toe-hold, hammerlock, strangle-hold and others. The strangle was barred because it was not merely painful, but was essentially dangerous to life, and fatalities had followed its use.

But the more painful holds are nothing in the life of a mat artist, who expects to be severely wrenched and tested whenever he meets an equal. In fact, there is scarcely a hold in wrestling that forces the opponents' shoulders to the mat, in which pain is not the first principle. There are some leverage holds that will turn over an opponent; but in most cases wrestlers merely quit under extreme pain, or else have been previously so weakened by a punishing hold that they become easy victims of an applied leverage.

In contrast to the mat game is boxing. As between the two, wrestling is much more rugged, pastime and requires more genuine courage and stamina. It also requires of its devotees faithful adherence to conditioning rules.

Yet, strange to say, it is the wrestler who retains his strength and skill far into middle life, whereas most boxers who have fought regularly in early years are "through" before they are 30 years of age.

**Dress Eyeglasses**  
The Vogue in Eyewear for Men and Women

Albe's Dress Eyeglasses are glasses of character which enhance the personal appearance and add the distinguishing air of professional knowledge and social station, the hallmark of the successful business man of today.

They come beautifully set in white and yellow gold and the light-weight, comfortable shell, also in the rimless style, and furnished with plain or two-color ribbon.

## Curley Vouched For By Manager Of "Bud" Taylor

Joe McMillen's Opponent Tomorrow Night a Rugged Fighter Who Can Hit Hard.

Ope "Tex" Johnson, who revealed to St. Louis Buddy Taylor, the Terre Haute bobcat, will uncover another "ace" tomorrow night at the South Broadway Athletic Club in the person of Don Curley, also of Indiana.

Johnson made good on his declaration that the St. Louis ring-siders would see a promising youth in Taylor; he now volunteers the tip that Curley will likewise come through, although to local wisemen he is all but unknown. Johnson says Curley has met many good boys with credit to himself, including Charley O'Connell, Charley White, Cal Delaney, Willie Beecher and Johnny Sheppard. He hits hard and can take it, too, is the information Johnson volunteers.

In Joe McMillen, Curley will be meeting a fighter of his own kidney when it comes to giving and taking. If Curley is the least bit slow he will spend an interesting evening, for against the more deliberate boxers McMillen is at his best. The speed merchants can take up Josephus from foot to dome, but boxers who "telegraph" are flitting with a mule's hind heels when they face Joe.

Matchmaker Heltzenroeder has arranged two other contests for the same card. Bill Burns, the Minnesota bear, will face Jack Hemple of Philadelphia for the second time. Hemple put up a game fight against Burns in their previous meeting, but was a tired lad when the finish was reached. Johnny Collins of East St. Louis and Rabbit Palmer of Jefferson Barracks will meet in the preliminary.

**Benefit Shows Arranged.**  
The South Broadway A. C. announces the completion of its Saturday night benefit boxing program as follows:

Kid Sandy vs. Al Thomas.  
Kid Regan vs. Pete Macklin.  
Pee-wee Kaiser vs. Kewpie Callender.  
Mike O'Donnell vs. Freddie Coyne.

The proceeds will be given to the poor of the Third Police District.

**Roper Meets Roberts.**  
NEW YORK, Feb. 2.—Bob Roper, Chicago heavyweight boxer, will make his first appearance in a New York ring tonight in a 15-round bout with Al Roberts of this city.

## Additional Sporting News

SPORTS through  
Edgren's EYES

By Robert Edgren.

(Copyright, 1921.)

The International Olympic Com-  
mittee announces that it has just  
about settled down to a decision that  
the next Olympic games will be held  
at Rome, Paris, Pasadena or Copen-  
hagen, if not somewhere else. Un-  
officially, the committee is said to  
favor Rome, on the ground that

Rome is about due for a big show,  
not having seen anything of impor-  
tance in the sporting line since Jul-  
ius Caesar won the Tiber  
swimming race in full armor, and  
Anthony clipped two days off the  
Rome-Alexandria marathon record.  
Nineteen hundred years is a long  
time to go without a set of games.  
If Rome doesn't have an Olympic  
meet pretty soon the Latins are like-  
ly to forget how to train for an event  
of this sort.

Pasadena's claims are strong, too.  
Pasadena promises to use thornless  
roses to crown the victors with,  
which will be quite an improvement  
on the commonplace laurel wreaths  
used in Athens and the bottles and  
gun-buts with which several win-  
ning Americans were "crowned" by  
enthusiastic Belgians at Antwerp.  
Some of our athletes would look  
very pretty crowned with roses. Pat  
McDonald and Pat Ryan peeping

shyly from under the rose wreaths  
would be worth a picture. Another  
argument in favor of Pasadena is  
that the American team could go  
there without being shipped on an  
American transport and interfering  
with priority rights of several mil-  
lion rats.

The committee is said to regard  
Paris as a pretty good place for the  
next Olympic games, but y'etcha  
the committee has a personal mo-  
tive in that. Paris is one grand lit-  
tle town.

As for Copenhagen, why anyone  
should want to hold anything there  
but an inquest is something the  
committee fails to explain.

The Olympic Committee is likely  
to pass up America on the ground  
that it's too dry for the beer-drink-  
ing championships. They don't know  
about our home brew.

Herman Fought Out of His Class.

Pete Herman's 17-round win over  
Jimmy Wilde gives a pretty good  
line on the fighting ability of Ban-  
tamweight Champion, Joe Lynch,  
who whipped Herman just before  
Herman sailed across to fight Wilde.  
Lynch can whip Herman any time  
they start. Herman was just giving  
himself a pat on the back when he  
said:

"Wilde is the greatest fighter I  
have ever seen."  
Herman weighed 119 1/2 pounds  
with Wilde, being no bantam, but a  
real featherweight, while the little  
English champion weighed at least  
10 pounds less. Credit where credit  
is due—Wilde is in a class all by  
himself at his weight, and it is un-  
fair to take away his reputation be-  
cause he was beaten by a much big-  
ger man.

At that, Herman succeeded in do-  
ing what many other American box-  
ers tried and failed to do.

Good Boxers Good Natured.

Collegiate boxing is a coming  
sport. For some years the Naval  
Academy, University of Pennsyl-  
vania, Penn State, Lehigh, Lafayette  
and several other colleges have been  
conducting boxing meets very suc-  
cessfully. Large numbers of stu-  
dents turned out for the various box-  
ing squads and the team competi-  
tions always drew big and enthu-  
siastic crowds.

Remember talking this over with  
President Theodore Roosevelt one  
time, and he said there was nothing  
he enjoyed more at Harvard than  
boxing. He went into competition,  
too. I see some college professors  
oppose boxing on the ground that it  
"might be degrading to the students."  
But there are a goodly number of  
eminent examples in this country to  
prove just the contrary.

As a plain matter of fact, boxing,  
properly conducted under fair rules,  
is one of the finest competitive sports  
in the world. The boxers enjoy it  
as much as the spectators. Boxing  
gives any man self confidence, a  
habit of thinking quickly and decid-  
ing instantly, control over temper,  
physical training and a method of  
self defense that may be extremely  
useful at any time, and can be  
learned only through giving and tak-  
ing blows in actual competition.

A skilful boxer, being confident  
of his ability to take care of him-  
self, and unwilling to take advan-  
tage of anyone less accomplished, is  
10 times as tolerant of abuse and 10  
times as hard to force into a row or  
a fight as a man who never boxed.  
Self control is one of the most neces-  
sary things to learn in boxing, for  
a boxer who loses his temper is a  
whipped man when facing a cool  
opponent of equal strength and skill.

Will Hold Tennis Up.  
There'll be plenty of tennis in 1921  
—most of it in the U. S. A. Many  
promising youngsters are coming up,  
and it isn't likely that England, Aus-  
tralia or any other country will put  
a thumb print on the Davis Cup for  
some time to come.

One Way of Looking at It.  
Now Stanislaus Zbyrsko seems to  
find himself outside the wrestling  
combine, and forced to get along  
without matches with alleged title  
holders.

Wrestling is a good sport when  
it's on the level, but unfixed wrest-  
ling matches are almost unknown.  
For years a "wrestling trust" has  
controlled many wrestlers in this  
country, has arranged schedules of  
matches and privately arranged the  
results, has had its most useful ac-  
tors and has barred all real competi-  
tion by uncontrolled outsiders.

A list of the big fakes pulled off  
in wrestling during the past three or  
four years would surprise a lot of  
people. It's easy to fake in wrest-  
ling. I've seen some of the rawest  
fakes on record, and going out have  
heard the crowd enthusiastically talk  
about what a great show it was.  
"I give 'em what they want," said  
one promoter. "If the bouts were on  
the level they'd go home sore.  
There's nothing more tiresome than  
a match on the level, with the circus  
stuff cut out. What's the difference  
as long as they think they seen some-  
thing and go home happy?"

GIANTS AND NATIONALS

ARRANGE SPRING DATES

NEW YORK, Feb. 2.—Dates for the  
joint exhibition games of the New  
York National League and the Wash-  
ington American League clubs on the  
northward-bound trip from the spring  
training camps were made public yester-  
day.

Seven games will be played. The  
Giants en route from San Antonio,  
Tex., and the Senators from Tampa,  
Fla., will meet for the first game at  
Jackson, Tenn., April 4. During the  
following six days the two teams will  
play as follows: April 5 at Knoxville,  
April 6 at Petersburg, Va., April 7,  
Norfolk, Va.; April 8, Washington, D.  
C.; April 9-10, Polo Grounds, New  
York City.

Lewis to Discard Headlock.

NEW YORK, Feb. 2.—Ed "Strang-  
ler" Lewis, heavyweight champion  
wrestler, has expressed a willingness  
to discontinue use of his famous head-  
lock. Jack Curley, promoter, an-  
nounced here today. Curley said he  
had a letter from Lewis stating he  
would discard the much discussed  
hold if the sport would suffer through  
its further use.

## Woman Outshoots Speaker.

HOUSTON, Tex., Feb. 2.—Trapshoot-  
ers here for the Sunny South Handi-  
cap were marvelling today that Mrs.  
Fred Etchen, Coffeyville, Kan., the  
only woman entered in the tourna-  
ment, had outshot Tris Speaker, man-  
ager of the Cleveland Indians, in yes-  
terday's shooting. Mrs. Etchen broke  
34 targets and Speaker followed one  
behind. Harve Dixon, former grand  
American handicap winner, of Orange,  
Mo., and W. W. Posey of Lancaster,  
Pa., each broke 100 targets. Yester-  
day's shooting was preliminary.

## Ty Cobb Is Feasted.

DETROIT, Mich., Feb. 2.—Detroit  
baseball enthusiasts acclaimed an  
old star as a new leader yesterday,  
when Ty Cobb paid the city his first  
visit since his appointment as man-  
ager of the Tigers. A full day of  
ceremony marked his welcome. The  
speakers at last night's banquet in-  
cluded Dan Johnson, president of the  
American League; President Frank  
Navin of the local club; Hughie Jen-  
nings, former manager of the Tigers;  
Gov. Alex J. Groesbeck; Detroit pub-  
lishers and other men prominent in  
sport affairs and public life.

## Kansas City Gets Lambeth.

AKRON, O., Feb. 2.—Otis Lambeth,  
a pitcher, was traded to Kansas  
City of the American Association for  
Outfielder R. Miller, manager Ralph  
Lattimore of the Akron International  
League team, announced last night.

## Hill Knocks Out Ferris.

SAN ANTONIO, Tex., Feb. 2.—  
Freddie Hill of Fort Worth knocked  
out Homer Ferris of St. Louis in the  
second round of a scheduled 12-round  
bout here last night. The men are  
lightweights.

## Jack Smith in City.

Jack Smith, outfielder of the Car-  
dinals, arrived in St. Louis last night  
presumably to talk over the terms of  
his 1921 contract with the Knot-Hole  
officials.

## Billikens Are Easy Winners.

The St. Louis U. five easily won over  
the Brown College team, 42 to 16, last  
night. Weber, who played center and  
forward, led in the scoring with 19  
field goals and four tosses from the  
foul line.

BILLS TO PERMIT BOXING  
INTRODUCED IN ILLINOIS

SPRINGFIELD, Ill., Feb. 1.—Bills  
were introduced in both branches of  
the Legislature yesterday to legalize  
10-round no-decision boxing bouts.  
Another, sponsored by the Illinois  
Boxing Fans Association, would pro-  
vide 15-round bouts with league  
gloves. The bills would be under  
a commission named by the Gov-  
ernor.

the  
Only  
One  
that's  
4 leaf blend.

You want a real cigarette that is  
full-bodied, with that good old  
tobacco taste. That's why we put  
Kentucky Burley heart-leaf in Spur.

A totally different kind of leaf is  
needed for that spicy, aromatic-  
aroma. That's why we put rare and  
choicest selection of Macedonian  
leaf in Spur.

Then there is the leaf that gives  
"life" and "sparkle" to the blend.  
That's why we put Golden Virginia  
in Spur.

And it is possible to make a ciga-  
rette that burns just right—yes,  
cool-burning. That's why we put  
Maryland-grown leaf in Spur

Good old tobacco taste—Spicy Aroma—Sparkle—Cool Burning  
Can You Beat It?

Crimped

Here's something out of the ordinary: a patented machine that  
cleverly fastens together the paper edges without using paste. You bet  
it's a good idea! No paste means better taste, trimmer looks. That's  
why we crimp the Spur seam.

Making men's clothes—  
and making them right

There's no way of making  
men's clothes and making  
them right except by cus-  
tom tailoring.

And there won't be until  
one man is an exact dupli-  
cate of many other men.  
Men of individuality natu-  
rally demand custom tailor-  
ing.

Men wearing Losse tailored  
clothes have made the dis-  
covery that good tailoring  
and good woollens pay in  
extra wear as well as extra  
appearance.

## STOCK MARKET WEAK, INDUSTRIALS LEADING DECLINE

Losses Common in Mail Order Stocks and Sugar Issues—Northern Pacific Is Feature for Strength.

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Feb. 2.—The Evening Post, in its copyrighted financial review today, says:

"With call money opening and renewing at 8 per cent for the first time since Nov. 17 and with its price rising to 9 per cent during the last hour, for the first time since Nov. 17, the stock market was weak throughout the day. Trading, however, was not on a heavy scale and selling appeared mostly in small lots. Industrials again led the decline, the features of the morning being weakness in the mail order stocks and in the sugar issues. At the low levels of 2 and 3 points were recorded and toward the close the loss of between 1 and 2 points were common. Rails were fractionally lower with Northern Pacific a feature for strength with an advance of over 2 points.

"Money closed at 8 per cent.

**Foreign Exchange Market Strong.**

"After yesterday's break and recovery, the foreign exchange market showed a strong tone on a smaller volume of business. The chief activity was in sterling, French francs, Dutch guilders and Canadian dollars. Transactions in the latter are becoming increasingly important. Sterling moved up to \$2.54, which represented a gain of 1/4 cent over last night's close, while the gain in Canadian dollars was proportionately greater, an advance of 1 cent bringing francs to 8 3/4 cents. French francs gained 15 points at 7 3/4 cents and Dutch guilders picked up one-third of a cent at 24 cents. Scandinavian exchanges were quiet and irregular, but those on the Far East and South America were firmer.

"Silver at London ended its decline, reacting up 1/4 pence to 46 1/2.

"The commodity markets showed a local recovery after their extreme weakness of the last few days.

"March wheat advanced as high as \$1.19 and late in the day commanded \$1.57, which is 2 cents above the previous close. Corn and oats made little change, selling around 1 1/4 cents, or about 10 points less than at the end of yesterday. A steady tone is reported in the Liverpool market.

**Decline in Pig Iron Production.**

"Despite reports of reviving activity in the steel industry during January, pig iron production fell to an average of 7,500 tons a day, as compared with 8,500 in December and 10,500 during last October. The independent manufacturers again have outstripped the loss of the steel mills, which produced 5,000 tons a day, while the steel corporation actually increased its output by 1,000 tons. Merchant production was 2,500 tons less. Merchant while active furnaces fell from 201 to 182. Pig iron prices continue to weaken and the Steel Corporation's sheet mills have posted a notice of a 10-per cent reduction in wages. 'Until the present break in the market, this has been a healthy and cheerful prognosis.

"Age, too, great change is expected in the export situation. In view of the recent break in the market, this is hardly a cheerful prognosis.

**Wall Street News and Comment**

**SPECIAL DAILY**

By Special Correspondent of the Post-Dispatch.

NEW YORK, Feb. 2.—Today's developments in the financial situation were again very much mixed. This included some things that were favorable and others that were not, but the balance as reflected in the stock market was decidedly adverse.

By early afternoon the bid for new money had been raised to 9 per cent and this was the signal for a renewal of heady efforts against the list.

**The Bond Market.**

The decline in Liberty Bonds, uninterrupted since Thursday last, was checked today and there was a moderate recovery. The movement which had carried the various issues down 1/2 to 1 1/2 points within a week was a pretty generous reaction and what today's recovery proved was that the reaction had gone far enough to attract very substantial buying. In the government group the feature of the day was the activity at sharply advancing prices in the Mexican issues. Both Mexican Government 5s and 6s were bid up briskly. There was no news to account for their advance. It simply followed the accumulation which has been going on since for some time by banking interests in close touch with Mexican officials which evidently are confident that the new regime in Mexico City will make good on its obligations.

The new Pennsylvania 6 1/4s finally got back to their issue price of 99 1/4. This showed that the premium of 1/2 per cent which was established on the first day of the offering was a good deal forced. Also it emphasized the distinction between the big over-subscription and the final placing of a bond issue. Although subscribers were not down to a turn and were not in the market for the first time, the subscription and the final placing of a bond issue. Although subscribers were not down to a turn and were not in the market for the first time, the subscription and the final placing of a bond issue.

## SHE WASN'T SICK, BUT HER CHILDREN WERE

Six Months of Care and Worry  
Were Too Much for Her

Got Thin, Nervous, Tired

Her Brother-in-Law, a Doctor,  
Said She Was Anemic, and Ad-  
vised Pepto-Mangan

Here is a story of a strong, vigor-  
ous mother who never knew what ill-  
health was. But three years ago her  
two little boys got into the habit of  
being sick.

Six months of care and worry were  
too much for her and brought to light  
the fact, that, with all her apparent  
vigor, she really was anemic. She lost  
flesh, couldn't sleep well and got  
nervous.

Then the doctor (her brother-in-  
law) prescribed Pepto-Mangan.

She said: "Fred explained a lot  
about the special sort of iron-content  
in Pepto-Mangan, and a lot of other  
things that I don't understand, but  
what I do understand is that a bottle  
of Pepto-Mangan is always going to  
be in my medicine chest as long as  
I live. Whatever it contains, I don't  
know or care, but I do know that it  
builds me up when I get run down,  
and that's enough for me."

Gude's Pepto-Mangan is an abso-  
lutely dependable red-blood builder in  
all conditions of lowered vitality not  
due to serious disease of the vital  
organs. It improves the appetite, im-  
parts color to the cheeks, and creates  
new hope and ambition in those who  
have become pale, weak and listless.  
Physicians recommend Gude's Pepto-  
Mangan. When you order, be sure  
the word "Gude's" is on the pack-  
age. Without "Gude's" it is not  
Pepto-Mangan. Furnished in both  
liquid and tablet form. For sale by  
all druggists.

## ACID STOMACH

Gases  
Sourness  
Indigestion  
Heartburn  
Flatulence  
Palpitation

Just as soon as you eat a tablet or  
two of Pepto-Mangan all the stom-  
ach distress caused by acidity will  
end. Pepto-Mangan always puts  
sick, upset, acid stomachs in order  
at once. Large 60c case—druggists.

## PAPE'S DIAPEPSIN

Yes, Mrs. Smith  
Resinol  
is wonderful!

"We always keep a jar on hand.  
It is the best thing I know for ec-  
zema and similar skin, and it is so  
gentle and soothing it is excellent for  
cuts, burns, or sores. We use Res-  
inol Soap also—it's ideal for the com-  
plexion and bath. Yes, you can get  
all the Resinol products from your  
druggist."

cessor today through Post-Dis-  
patch Agent.

## COMPTROLLER DENIES FRAUD IN SHIP BOARD

Tweedale Testifies It Will Be  
Able to Account for Every  
Cent Spent in Construction.

By the Associated Press.  
WASHINGTON, Feb. 2.—Em-  
phatic assurance that the Shipping  
Board would be able to account for  
every cent spent for the construc-  
tion of vessels was given yesterday  
to the House Committee, which is  
conducting inquiry into the board's  
operations, by Alonzo Tweedale, gen-  
eral comptroller of the board.  
Searching audits of accounts, he de-  
clared, had revealed no evidence of  
fraud or misappropriation of funds.  
During his testimony, Tweedale  
also contradicted the assertion,  
made before the committee by Col.  
E. H. Abadie, his predecessor as  
general comptroller, that he (Abadie)  
had been "roaded" out of his  
job by Martin J. Gillen, former  
executive assistant to the chairman  
of the Shipping Board. Gillen re-  
peatedly defended Col. Abadie's  
methods which did not meet with  
the approval of some members of  
the board, according to Tweedale, who  
denied also that he had made any  
attempt to dislodge Col. Abadie, in  
order to get his job.  
Selected by the House Committee.  
Declaring that when he was ele-  
vated from treasurer of the Ship-  
ping Board to general comptroller  
he was given complete freedom to  
recommend his successor as treas-  
urer, the witness asserted he had  
selected R. W. Bolling, a brother-  
in-law of President Wilson, who had  
been serving as assistant treasurer.  
No influence whatever was brought  
to bear upon him to make such a  
choice, Tweedale declared. Ques-  
tioned by committee members he  
said that to his knowledge Bolling  
never had used his influence, official-  
ly or unofficially, in behalf of  
contractors building ships for the  
board.

Discussing the audit made by Per-  
ley Morse & Co. of New York, of  
the accounts of the Bethlehem Ship-  
Building Corporation, which it was  
charged at a previous hearing, had  
brought to light a \$269,000 voucher  
for the personal expenses of Charles  
M. Schwab, while in charge of the  
Emergency Fleet Corporation's con-  
struction program, Tweedale de-  
clared the audit had been called off  
because it was expected to cost at  
least \$750,000, perhaps \$1,000,000.  
Although the Perley Morse audi-  
tors later were authorized to re-  
sume their examination of the Beth-  
lehem accounts, Tweedale said they  
have failed to make good their  
promise to make "startling disclos-  
ures." The board until Jan. 1 last,  
paid Perley Morse & Co. \$457,271  
for its audit of the accounts of the  
general comptroller, who declared it  
could have been done by the board's  
own force of auditors as efficiently  
at less than one-third that expense.  
Audit to Cost \$1,000,000.

Tweedale estimated it would take  
the Perley Morse auditors eight or  
nine months to complete their work,  
and that the total cost of their audit  
probably would reach \$1,000,000. A  
thorough examination of the Beth-  
lehem's accounts by the Shipping  
Board's auditors, Tweedale said, had  
revealed no glaring irregularities.  
Representative Steele, Democrat,  
of Pennsylvania, a member of the  
committee, asked Tweedale whether  
he did not think that "a fraud had  
been perpetrated on the Govern-  
ment" by Perley Morse & Co. in that  
it had "promised to make startling  
disclosures" but "after an expendi-  
ture of nearly one-half million dol-  
lars nothing of practical value had  
been disclosed."  
Steele wanted to know if the gen-  
eral comptroller thought there was  
basis for court action by the Gov-  
ernment on this ground.  
"I should think there would be  
basis for such action," replied Twee-  
dale.

## ST. LOUISAN'S BROTHER ON SHIP NOT HEARD FROM SINCE NOV. 17

Salesman Has Been Unable to Get  
Any Information of Craft That  
Sent Out Wireless Call.  
Louis Gomez, 25 years old, of  
4024 Lindell boulevard, today told a  
Post-Dispatch reporter that he has  
been unable to obtain any informa-  
tion as to the fate of his brother,  
Richard Gomez, captain of the  
steamship Yute, which on Nov. 17  
sent out wireless calls for help. No  
word has been received from the  
ship since that date and it is be-  
lieved that she must have been lost.  
Gomez said that his brother, who  
was 32 years old, sailed with the  
Yute from Baltimore about Nov. 13  
bound for Dunkirk. The brother  
has a family living in Spain. The  
younger Gomez came here from  
Spain six years ago and is a travel-  
ing salesman representing a number  
of St. Louis concerns in Mexico.

## MUNICIPAL CAR LINE RUNNING

Detroit Formally Opens 13 Miles of  
Track.  
DETROIT, Mich., Feb. 2.—De-  
troit's municipally-owned street  
railway system was formally placed in  
operation yesterday.  
Service was begun over 13 miles of  
track completed since last April,  
when the voters authorized a bond  
issue for \$15,000,000 for a system of  
100 miles.

Oil Refinery Buildings Burn.  
By the Associated Press.  
OKMULOGEE, Okla., Feb. 2.—Two  
high-pressure stills, the receiving  
house and cooling tower in the Em-  
pire Refinery plant here, were de-  
stroyed by fire early today. No one  
was injured, according to refinery  
officials.

**THE POST-DISPATCH PLATFORM**  
 I know that my retirement will make no difference in its cardinal principles, that it will always fight for progress and reform, never tolerate injustice or corruption, always fight demagogues of all parties, never belong to any party, always oppose privileged classes and public plunderers, never lack sympathy with the poor, always remain devoted to the public welfare, never be satisfied with merely printing news, always be drastically independent; never be afraid to attack wrong, whether by predatory plutocracy or predatory poverty.  
 JOSEPH PULITZER.  
 April 10, 1907.

## LETTERS FROM THE PEOPLE

### Women Must Run Things.

To the Editor of the Post-Dispatch:  
 A woman writing in the people's column, says the world was cleaner when the men ran it than now.

I am also a woman, and I believe that woman needs equal rights with her equal man.

St. Louis is one of the oldest cities in the U. S. With its location, and all its advantages, it should be one of the greatest cities in the world, and a commercial center worth recognizing. It would be, if it ever had at its head a group of leaders who had the city's interests at heart, and were willing to give conscientious attention to welfare of the people.

All through its history, St. Louis has had men to lead, and mislead it. It has become a common thing to see the crooked deals, and selfish motives of our men politicians laid bare by newspapers that wish to inform the people for their benefit. And now someone chirps up with "give the men a chance"—they will show you what they can do. They have shown us, long enough. Now is the time for the women to show the men what they can do. It is a shame that the men have made this step necessary. Women weren't meant to have such things to attend to, originally, but the men have made it necessary, since it is our children who benefit or lose, in the end, by our laws. It is the mother-instinct that has prompted women to begin a clean-up on the crooked politics of today.

As far as the world being cleaner when the men ran it than now, they are still running it. Our women are by no means outsiders, and the more these club women, with their honest unselfish motives, can take away from the "men folks," the better off St. Louis will be.

A MOTHER.

### Stop Immigration.

To the Editor of the Post-Dispatch:  
 Of the many articles published on immigration none appeal to Americans. Americans are tired of immigration. It seems the prohibition of immigration is necessary if we are to endure as Americans. The Japanese problem can be settled by stopping all immigration, as the Japanese are only requesting that they be treated as other immigrants. The admission of tourists, business and Government representatives of foreign nations would suffice.

Foreigners bring their different organizations with them and through their influence set up as many little governments, each trying to influence the municipal, state and national governments to favor them, while Americans are neglected.

WALTER W. REYNOLDS.

### Golden Rule Week.

To the Editor of the Post-Dispatch:  
 For months past I have been on the verge of addressing a letter to you on the subject which is to follow, but have refrained from so doing because I did not want to thrust myself into the uncharitable limelight of public criticism; but I have finally decided to brave it, for humanity's sake.

Has it ever occurred to you that there exists a panacea for all the evils of today in the exercise of one little time-worn but seldom used proverb, universally known as the Golden Rule: "Do unto others as you would have others do unto you?"

It through some mediums of world-wide publicity as I know of none better than the daily press this good old adage could be put into operation, it would have a most beneficial and far-reaching effect.

It would most certainly tend to lessen crime, would have a tendency to halt profiteering and would make all of us more courteous and considerate of the feelings of our fellow men. Would it not therefore be appropriate and timely when each individual and the nations of the world are at loggerheads with each other, each trying in their own way to gain a signal advantage over the other, either by force or by foul means, to inaugurate a week in each year when this wonderful teaching, "Do unto others as you would have others do unto you," would be put into effect? It could be given simultaneous exploitation by the press, the pulpit and the moving picture organizations.

If such movements as "safety first" and a "national thrift week" are important enough to devote so much time and attention to, why not a "Golden Rule" week?

CLARENCE L. SCHARFF.

### Pay for Jury Service.

To the Editor of the Post-Dispatch:  
 This may be a joke, but where do our lawmakers get this \$1.50-a-day jury service? Today jury service is still valued as in grandfather's time, when high cost of living was a small object. Of course, a man must do his duty as a citizen, but why do not some of our lawmakers wake up and make it interesting financially—say \$5 a day, so that a man could do justice to both conscience and family? You take a man away from his business, his income stops. Out in the county the pay is \$3 a day and mileage; in the city \$1.50 a day and pay your street car fare, not enough left for one square meal. Will somebody from somewhere please push this joke forward.

J. PIEL.

## THE AMERICAN VOICE.

The decision of the Allied Supreme Council on German reparations presents an irrefutable demonstration of the need of American counsel in the post-war readjustments of Europe—not the political counsels of the Jackdaws of a little America, but the calm, detached counsel of those of our statesmen who can see a patriotic purpose most truly served in a policy freed of the inhibitions of hatred and fear.

Notable among these instances was the Polish invasion of Russia and the train of turbulence and suffering which followed in its wake. The anti-League orators thought they had that instrument buried when it failed to prevent the Polish-Russian war. But had the American voice been heard in the allied councils which permitted the Polish picking of French chestnuts, the Pilsudski project would not have been undertaken.

It was the American voice of toleration which brought about the armistice that ended the war. It was the American voice which finally effected the Fiume settlement without an Italian conquest of Jugo-Slavia. And it was the voice of the integrity of Russian territory which has injected the first sane note of self-restraint into the chaos of cupidity and indecision which has befuddled that department of allied politics.

American counsel would have been peculiarly equipped to pass judgment on the expediency to be served in the levying of war indemnities. Europe, blinded by the unrelieved chain of adversity beginning with the first guns of the war, is in poor fettle to analyze the delicate strands of causation in which are rooted the economic foundations of reconstruction. Our American economic experts, which include many of our captains of trade and finance, are equipped today, if they never were before, to appreciate the interdependence of world markets and sources of production to the extent that they have learned that even so wealthy and self-sufficient a nation as the United States cannot prosper without the buying power of Germany, Austria, Russia and the whole group of national insolvents of Central and Eastern Europe.

If the present reparations bill were cut in two and the sacrifice thereby suffered by the European allies were spread over the stipulated 42-year period, the loss per person per annum would amount to about \$5. What is this, compared to the paralyzed commerce of all the allied nations, the demoralization to result from an uncollectible reparations bill and the flame of war hatred prolonged through 42 years of military and economic bondage?

Truly the allied councils need the voice of reason, and the precedents argue that this voice could and would have been supplied by America had it not been throttled by partisan politics.

## THE CAUCUS IS OLD STUFF.

Legislating by caucus, the method installed at Jefferson City by Lieutenant-Governor Lloyd and his faithful 10, is not an invention. The device, it seems, is a product of Democratic ingenuity. The Globe-Democrat reminds us that when the Democrats came into power midway in Mr. Taft's term they established caucus rule "not as an emergency proceeding, but as a regular process of legislation."

Well, where is that Democratic majority now? That question might be pondered by our Missouri Caucasians.

## MOLARIZING THE LIQUOR LAWS.

The prohibitionists have been lenient with the American people. They have tried to lead the people by kindness into the delectable land of the high-and-dry. Witness the Volstead act—conceived in a spirit of tolerance for the flabby, inferior folk who had not thoroughly mastered their appetites and, accordingly, were allowed a portion of fully one-half of one per cent on which to taper off.

How have the people responded to such indulgent treatment? They have responded with chicanery, organized treachery and subtle ingenuity. In consequence harsher measures will have to be resorted to. Will the prohibitionists hesitate to give the other another turn? Those who think so don't know them. The prohibitionists are of stern stuff. They have resolved to exclude compassion from their practice. They will eliminate the fine as punitively ineffectual. It is to be jail for anybody violating the liquor laws. Jail for the seller, and caveat emptor, too. The buyer will accompany the seller to durand velle. That ought to start a jail-building boom.

But suppose the weak and wicked argue that a drink is worth a jail sentence, as they are very apt to do. Will the prohibitionists have no further recourse? Just wait and see. If the new regulations, which the next Congress will be ordered to adopt, fail to effect the perfect drouth it will then be necessary really to be severe. By severity we mean that violation of the liquor laws will be a capital crime, with frills.

The offender, having been duly tried before an enforcement officer and found guilty, will be hanged by the neck until dead. Moreover, the wife and children will be put in jail.

## EDITORIAL SPARKS.

Prohibition will never be a complete success until the soda fountains serve free lunch.—Baltimore Sun.  
 Not only the beautiful Danube, but everything around it, is rather blue just now.—Minneapolis Tribune.

"What was the excitement down the street?"  
 "Oh, a man in a reverie ran into a woman in a tantrum."—Boston Transcript.

When a woman says she wouldn't marry the best man in the world she means she wants a man with a few human faults.—Binghamton (N. Y.) Sun.

"They say a woman cannot keep a secret."  
 "That's why I believe in having women in politics. I'm in favor of pitiless publicity."—Washington Star.

Over in London, according to the headlines, they "nip plots." Over in this dusty desert it has become quite a practice to plot nips.—Norfolk (Neb.) News.

The esteemed New York Sun has an editorial discussing the question "Why Druggists Are Bred." We thought it was because their hair came out.—Nashville Tennessean.

"Ma's husband is the make-up man on a newspaper." "I suppose his work is to make up those sensational stories they print. What a fascinating job!"—Boston Transcript.

When we told her that we failed to get the last radio message sent to us from a station up in Maine the Sweet Young Thing suggested that perhaps the wires were down.—Nashville Tennessean.

dren of the abominable wretch will occupy box seats at the performance and lead the cheering.

Whether the wife and children will be shot at sunrise the next morning is a question upon which there is still some division of opinion in prohibition circles. There are sentimentalists among the prohibitionists who think that might be going a bit too far. But those palterers will yet be made to see that there can be no compromising with the Demon Rum, if the dictatorship of the dregs, by the dregs, for the dregs is not to perish from the earth.

February came in like a smoked herring.

## NEGATIVE ECONOMY.

The national House of Representatives, in voting to defeat the amendment to the rivers and harbors bill substituting an appropriation of \$28,000,000 for the \$15,250,000 carried in the measure, acted less for economy than for waste. If the fifteen millions will not serve the required purpose of waterway development, then that fifteen millions, if not entirely misapplied, will have been uneconomically applied.

The \$28,000,000 proposal, now embodied in a new bill based on the minority report of Representative Small of North Carolina, has the endorsement of all the Representatives of the valley. This means that it is necessary in carrying out the waterway program of the 27 river valley states.

The appeal of this program is that the nation's commerce here and now needs the transportation facilities which our unimproved waterways withhold. A further appeal is that unfinished projects, of which there are many, are not only an idle investment until completed but are subject to the ceaseless ravages of time and running water.

Although Congress may believe it is saving the taxpayers to withhold a few millions, it is in reality squandering by failing to put into operation a transportation resource of which the commerce not merely of the river cities and states, but of the entire nation, stands in need.

The Debs commutation may be simply another matter which the President chooses to defer to his successor.

## THE ALIEN PROPERTY DISPUTE.

In the controversy between Samuel Untermyer and Attorney-General Palmer over the administration of the office of Alien Property Custodian, only a thorough investigation, which Mr. Palmer invites, can reveal the truth or falsity of the charges that the custodian, instead of appreciating his duties as a trustee for the conservation of enemy property, pursued policies amounting to confiscation.

The matter is of peculiar interest to the United States, inasmuch as the principle of immunity of private enemy property from confiscation is one to which our Government is traditionally committed. It need only be recalled that as early as 1785 the United States Government charged Thomas Jefferson, Benjamin Franklin and John Adams with a joint mission to the leading Governments of Europe to conclude with them, if possible, treaties stipulating for the immunity of private enemy property not only on land, but at sea as well. France and England declined such an engagement, Catharine II of Russia evinced some interest, but Prussia alone would take the step with us. This policy has never been abandoned, its proposal to other Powers has been constantly reiterated, and in 1781 Italy was persuaded to join in such a treaty with us. Our delegations at The Hague conventions of 1899 and 1907 were instructed to press the subject, but were unsuccessful.

It will be seen, therefore, that as the leading exponent of this enlightened principle among the nations of the world, consistency, if not the virtue of the principle itself, places some limitations upon our official conduct in such matters, and seems to require of us a more punctilious duty than may have rested upon co-belligerent Governments.

It is worthy of mention that Germany did not confiscate private property of Americans or other enemy persons, although, following the actions of her enemies, she placed such property in the hands of official conservators. And that her administration of such property was probably satisfactory is indicated in a recent statement of the International Harvester Co., characterizing the German administration of its sequestered property as "efficient and generous."

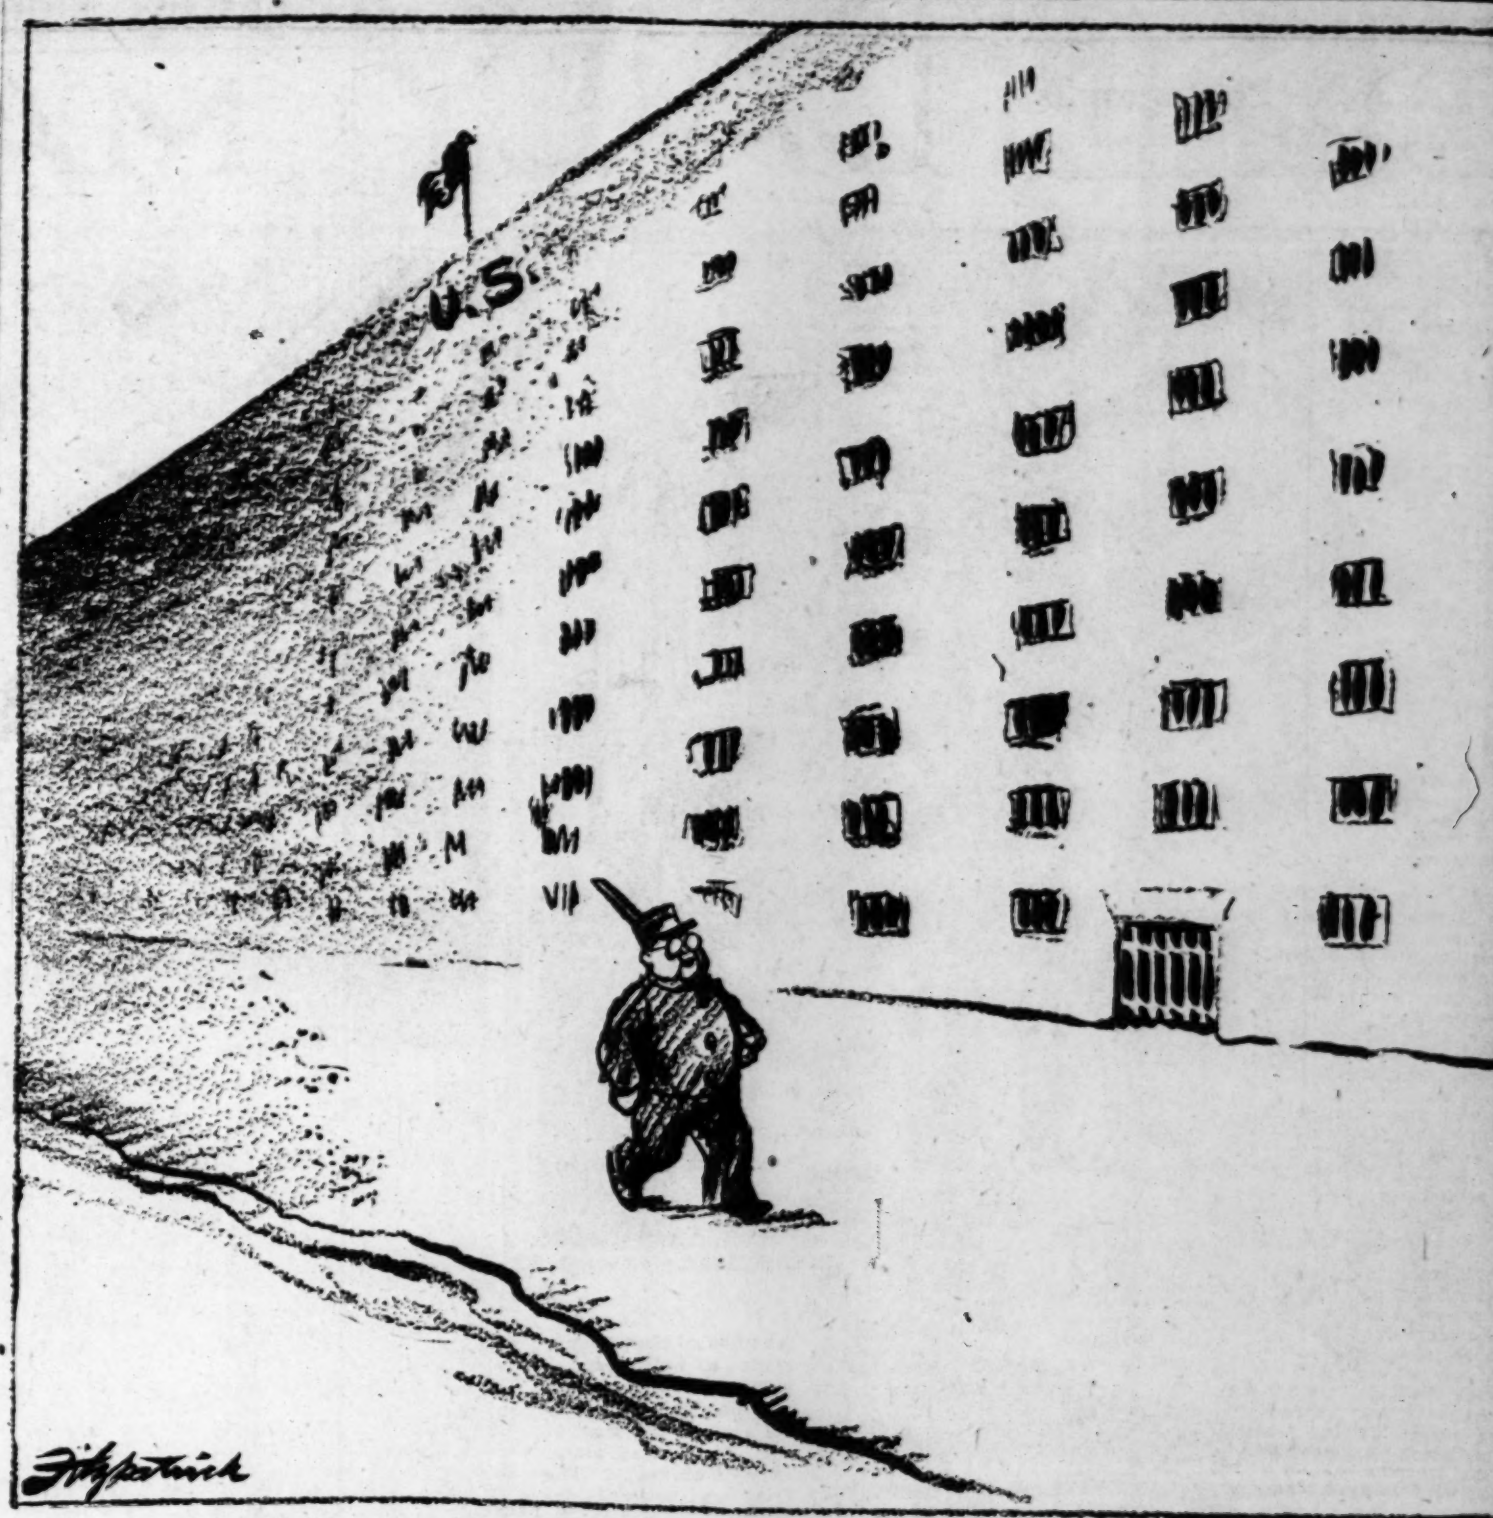

By the terms of the treaty of Versailles, Germany is forbidden to inquire into the acts of custodians of the property of her citizens seized in allied and associated countries, so that the customary remedies that would otherwise be open to correct injustices are now closed; the acts of custodians, however improper, are in effect validated. This would seem to be all the more reason why our Government should desire to establish the facts.

We cannot but contemplate with horror the stockinged expense that was revealed to the jury of Philadelphia persons before it was decided that a skirt line seven and one-half inches from the ground was the limit of morality.

## WILL THEY AMBUSH HIM?

—Louisville Courier-Journal.

WITH PUSSYFOOT ON GUARD.

## JUST A MINUTE

Written for the POST-DISPATCH  
 by Clark McAdams

### THE DAY.

THE day is gray.  
 The air is sifted with fine rain;  
 Only the wet brown leaves  
 And the dampened yellow fields  
 Stretch here and there along my journey  
 Signal back to me the echo  
 Of warmth that lies in my own heart.

Thankfulness is enfolded there, too:  
 That life has shown me the battle,  
 That I have learned to fight the grim things  
 For the sake of others.  
 And see, beyond the grayness and the rain,  
 The warm color of encouragement  
 Through the haze of every baffling day.

JANE BOLE.

The picturesqueness with which legal verbiage seeks to make plain what is meant beyond any chance of misunderstanding is illustrated by the petition of the plaintiffs in a sawmill case at Roseville, a suburb of Sacramento, Cal.

Concerning the ambition of this particular mill, 45 residents have declared that it is a nuisance. But the lawyers were not satisfied to have it put in that simple, straightforward way. They never are. What they said was that the machinery will be operated with great violence and frequency, causing sundry great noises, day and night. "Together with the vibrations of the earth resulting from the vibrations of said machinery," will impair the property of the plaintiffs for residences and homes. And further, "That the operation of said machinery will cause to emanate from said building harsh, shrill, discordant and unusual noises and vibrations, which will substantially interfere physically with affiant's enjoyment of his property and be and become a nuisance to such an extent that affiant will have to remove from the neighborhood."

So far as we know, the law has never attempted to make plain to a court what an earthquake is. Perhaps it has, and we have not seen it. If not, look out for some wonderful word pictures one of these days!

Just to show how little we succeed in tracing effects back to causes, it has been discovered within the last few days that opposition to exportation of the city limits probably comes chiefly from manufacturers of coal oil lanterns. Who ever dreamed of it? Certainly none of our two-story thinkers did. Socrates said on yesterday that nothing else ever got by him in the way that did. He had looked into the matter from every point of view he could think of, and had never smelled coal oil once.

One of our contributors sent us something the other day with the assurance that it was written before 7 o'clock in the morning. We returned it with the assurance that the author got up too early for our limited space.

## LOTS OF 'EM NOW.

Sir: Morning of Nov. 5 last we thought just a Minute and we were the only Democrats extant. We told 'em what would happen, but they said us nay; and now that it has happened, we are personally quite willing to believe that it is not because of politics, as we yet have a job and our cupboard is not lean. But we cannot convince the jobless man that what we told him would prove true really is what we told him. Can you get that? Meanwhile, those not dependent on jobs might ask Charlie Schwab what he really thinks of his party.

T. W. S.

## HARD AT IT IN ARKANSAS.

The Arkansas Legislature has convened and now the assembly, Messrs. Marshall, Schone, Longmire, Napoles and Simmons will introduce and pass a bill to destroy all six in the State.

## THE NEW GERMANY.

From the Frankfurter Zeitung.  
 WE do not yet know whether we are on the road to new reaction or to more radical revolution, either of which will utterly ruin us or whether we are at last on the path toward recovery. Our people are for the time being mentally at sea. They wander hopelessly in the dark. It is the second tragic feature of what we call the German "revolution," that the madness of the conqueror does not leave us in peace to perfect our democracy at leisure; that the indifference and wrong-headedness of the world continue to push our people toward despair. Simply oblige the billboards in a German city today. If an unknown lecturer advertises a talk on some different subject, let us say the relation of the sexes, the crowd throngs to hear him as if the whole weal and woe of the nation hung on this single point. He has to repeat his lecture a half dozen or a dozen times. People will pack Christian Science meetings today, and Spiritualist lectures tomorrow. And so it goes. To be sure, there are quieter and deeper currents moving among us. Numbers have freed themselves from the materialistic obsessions of pre-war times, and are trying seriously to cultivate the higher values of life. But this does not help the Government in the present emergency. The worst of our people are turning away from public service and political affairs, leaving them in the hands of reactionary or radical extremists. These extremists capitalize the despair of the masses, and misuse it for their selfish ends.

FOR SALE—Apartment building with 12 tenants full all the time.  
 How do they do it?  
 AS: Sign in a downtown drug store:  
 Which is true enough, I am afraid. The device is to have a reduced price on one thing to decoy us in. After we are in, they hope to sell us something else at war prices. You may have noticed it.

## OUR FOREIGN TRADE.

From World's Work.  
 HAVING improved the personnel and morale of the administrative branches of the Government and having a better co-ordination between these branches and Congress, Mr. Harding will have the machinery with which to grapple with the many extremely difficult problems that confront his administration. One of the most difficult of these is the re-establishment of normal trade relations with Europe. For nearly two years now we have agitated ourselves in an argument about our political relations with Europe, as to whether we should or should not join a league of nations, and if so, what kind we should join. In the meanwhile we have neglected our economic relations. When the British pound brings no more than \$3.40 it means that all Europe has to pay us a premium of more than 40 per cent on everything it buys. It cannot do this—consequently it does not buy. Moreover, it means that in every other market in the world but our own the European farmer or manufacturer has at least a 40 per cent advantage of us in selling. If three Argentinean pesos can buy a dollar's worth of goods in New York and \$1.40 worth of goods in London and \$3 worth in Paris, the Argentinean is not likely to buy from us if he can get what he needs elsewhere.

## PROHIBITION ON THE HIGH SEAS.

From the New York Tribune.  
 THE American shipping men who appeared before the House Judiciary Committee to urge the passage of the Edmonds bill to supersede the Palmer ruling which made it illegal for the American passenger ships made their case clear. The American merchant marine, so far as international passenger service is concerned, will be out of business if the Palmer rule is enforced. We can have passenger liners or we can have the satisfaction of saying all American ships are liquorless, but we cannot have both. The Palmer rule attempts to apply the Volstead law to the high seas. It can't be done, for we have no exclusive jurisdiction over the high seas. Other nations will not adopt our regulation. We can't make them. And we can't escape the competition of ships not operating under the Palmer rule. To build up our American merchant marine at best will be difficult. It cannot succeed unless our ships have a 100 per cent chance to secure business. They will not have such a chance if the Palmer rule stands.

PATIENCE WORTH.

MORE TRUTH THAN POETRY  
By James J. Montague.

PARAPHRASING THE PSALMIST.

"When I was a child," as the psalmist saith, I thought as a child, no doubt; I know at least I was scared to death Whenever my school let out. And I gazed about with affrighted eyes Fearful that I might see The neighbor's boy who was twice my size And who wanted a fight with me.

When I was a child, I was worried sick, As I wrought with a trembling hand, At a thing they called arithmetic Which I never could understand. And what it meant it mattered not; But I feared what the folks would say If the usual kind of a mark I got On examination day.

When I was a child I was troubled sore When I heard the preacher tell Of a dreadful place on the other shore That was known by the name of hell. And I often woke in the dead of night And shuddered in sheer despair, Whenever I'd strayed from the path of right, Lest my sins should send me there.

When I was a child there were bears and things That lurked by my little bed, And ghosts with white and shadowy wings That filled me with nameless dread. I do not know what I'd ever have done With my troubles and griefs and foes, If I hadn't had such a lot of fun To mix with my childish woes.
